Subject: Public Comments Not Uploaded CF #20-0813-S1: We need a Green DTLA (that means more TREES), don't let Olympic Tower off the hook for tree-planting!

Councilmember De Leon and PLUM Committee Members,

Information listed for the 813-815 W. Olympic Blvd; 947-951 S. Figueroa St. Project states: "... a Director's Decisions to allow less than one on-site tree per four residential dwelling units (63 trees in lieu of 94 trees)."

The Tree Guarantee Fee Planting Plan Ordinance has clearly not been followed.

This project needs to either plant the number of trees required per City Code, or pay in In-Lieu fee for the "Planning Dept. Tree" category.

Subject: Public Comments Not Uploaded CF #20-0813-S1: We need a Green DTLA, no to Olympic Tower

Councilmember De Leon and PLUM Committee Members,

I am concerned about the insufficient study of Greenhouse Gas (GHG) emissions in the Olympic Tower Project.

The Greenhouse Gas analysis contained in the Project's Environmental Impact Report (EIR) fails to comply with CEQA Guidelines. Specifically, the GHG plans relied upon in the EIR are entirely aspirational and lacking any binding, project-specific requirements. Despite the Project's GHG emissions exceeding thresholds routinely used by the City for other City Projects, the City erroneously refuses to apply the same thresholds now to this project.

Given the insufficient Greenhouse Gas emissions analysis for this project, I urge the PLUM Committee not to approve the Olympic Tower Project.

Climate change is real and this city must face it NOW.

Subject: Public Comments Not Uploaded Build Olympic tower

Councilmember De Leon and PLUM Committee Members,

Building dense housing is the best way we can combat climate change at the local level. You have a moral imperative to move forward with this project. Don't let self interested groups deter you. We desperately need more housing.
