**Comments for Public Posting:** Greetings, my name is Kallie and I really, really love the Joan Milke Flores Park. I am a golden doodle and love to play with a tennis ball with my person, Don Bell. I am responsible for I don't bother other folks or dogs for I am obsessed with the ball. I play at the far end of the park where the ball gets thrown up the slope and I catch it before it rolls back down. It makes me pant and my tongue hangs out. If I have to go number 2 my person always has a bag and cleans up. We need a place like this for me to play for it gets out of control if I play tennis ball in the house. Thank you for giving me a place to be super happy.

**Comments for Public Posting:** I am fully supportive of this movement!! Since ours dogs need as much activity as we do, as well socializing help us both to maintain a healthy relationship with neighbors and visitors to the park. For me, personally, is a great opportunity to interact and play with my dog, I am 62 and this park offers me, besides the magnificent views of the ocean, a very important sense of safety to keep me active. Our dogs have not beaches to go freely., (at least, not closely) , they have to be keep on leash on trails all the time, dog parks are mostly small enclosures dividing small and big ones, and believe me, most of the times they all get along very well. So, please, give us an opportunity . Thank you for your time and help.

**Comments for Public Posting:** Joan Milke Flores park has been a safe place for dogs to play and socialize for a long rime. A generous portion of the park designated for off leash dog activity would be a godsend. Thank you.

**Comments for Public Posting:** Re: Council File 20-1534 Greetings Council Members: I would very much like to see this Proposal for an off-leash dog area approved. Many community members have worked long and hard, given their time and money to hopefully bring this to fruition. The area is located in San Pedro at Joan Milke Flores park. This area is not frequently used by our community in comparison to other parks and shoreline in the immediate area. Those of us with dogs have used this area to provide our pets and ourselves with exercise and socializing for years. Some people visit just to watch the dogs play, catch frisbees or roll in the grass. We are mindful of our responsibilities that come with allowing dogs to be off-leash. Some visitors (and their children) want to interact with our pets. A few visitors are not interested in the dogs at all, and we are mindful of that as well. I believe we need more community interaction than ever before. This area provides people of all political parties, religion, race, gender, ages and beliefs to meet and mingle, laugh and learn from each other over a common interest. Please give this proposal careful and serious thought and hopefully see the benefits of such a simple and helpful way to form lasting community benefits. Thank for your time. It is appreciated.
