Council File No: 20-1536

Comments for Public Posting: The STAP program should not be approved as is. No digital signs should be allowed. They will distract drivers, and cause crashes. Also, frequent flipping of advertisements causes problems for epileptics. Please do a CEQA analysis, and a traffic study on these issues. If you insist on digital signs, they should be dimmed from 8 pm to 8 am, and turned off from 12 am to 5 am when buses don't run. Display should be 33% of the time for bus schedules, 33% of the time for public service and neighborhood council notices, and 33% for advertisements. Don't let this turn into The Reef downtown, where it's bright 100% of the time, and advertisements 100% of the time, and is operating without a permit.
