**Comments for Public Posting:** The fee increase seems more than excessive...from \$89.00 to \$16,000.00. The result (intended or unintended) will be to disenfranchise all interested parties of a given development other than the developer. While the developer may make profit from the development, a neighbor etc. has no doubt has no financial interest but huge financial burden to appeal is on him or her. The amount of the fee will make it virtually impossible to file an appeal. This is not how government is supposed to work. Big moneied developers will have an unfair advantage and influence unless the fees are kept at a reasonable amount for all parties concerned.

**Comments for Public Posting:** I oppose raising the fee from 89 to 16000. that is a crazy amount for it to be raised and puts everything in favor of the developer. Seems very Unfair!
