Comments for Public Posting: I strongly support the Skip The Stuff ordinance! The amount of unwanted disposable waste coming into my house while I try to support local restaurants during the pandemic is ridiculous. Even if I request "no silverware" when ordering online, it comes anyway--so frustrating! We need to make "no extras" the DEFAULT, and let people who need disposable silverware ask for it. Please vote in favor of this ordinance!

Comments for Public Posting: I strongly support the #SkipTheStuff ordinance to require foodware accessories on-request. Providing takeout "extras" only on-request saves restaurants money and reduces unnecessary single-use disposable waste. #SkipTheStuff is a win-win for our LA communities, businesses, and environment.

Comments for Public Posting: I am a resident of LA and I hate getting cutlery that I haven't asked for. Please let's eliminate this no use plastic and get our city cleaner and free of plastic free "I strongly support the #SkipTheStuff ordinance to require foodware accessories on-request. Comments for Public Posting: I strongly support #SkiptheStuff and totally agree that single use utensils should only be given if the customer asks for it. I am a citizen of Los Angeles and am very concerned about our environment with the use of single use plastics, as it just circles back into our environment and has an effect on the species and wildlife in our oceans.

Comments for Public Posting: I strongly support #SkipTheStuff ordinance to require foodware accessories on-request. I have a drawer full of plastic forks and spoons that I will never use, hate to put in the trash! Even when I specify that I don't want these items when I order takeout. This will save restaurants money and will help reduce plastic waste! Thank you for reading this message! All my best, Karen Harwitt
