Agenda Date:

Item Number:

Summary: Amid this year's record breaking heatwaves, devastating floods, never-ending drought, and "worst-ever" wildfire season, Los Feliz Neighborhood Council supports the transition to 100% carbon-free, clean electricity by 2035. By implementing the "no-regrets" options in the LADWP/NREL study, we believe it is both possible and necessary to achieve 100% clean energy by 2035. While we support this transition to clean energy, we recognize that it is the role of the City and LADWP to provide our communities with the resources, tools and support that can empower everyday residents to take control of their energy future. We urge you to ensure that LADWP's investment in clean energy is directed towards empowering frontline communities, workers, and everyday ratepayers to lead and to thrive.
