Comments for Public Posting: I am very concerned about efforts our government is taking to try to force citizens to take drugs or other healthcare products against their will - or to force individuals to undergo medical procedures that are not in their best interest. This is wrong in so many ways. Healthcare in this country has always been and should always be private and personal. Every individual must be allowed to make healthcare decisions based on their own unique healthcare history and their own unique medical condition. These decisions should be made with informed consent and with access to physicians and other professionals that they trust. Under no circumstances should government ever be making healthcare decisions for individuals that are capable of thinking and taking care of themselves. It is always wrong to prescribe one course of action for everyone when every individual has unique circumstances that need to be considered. It's important to recognize that the products you are pushing are not approved, no long-term studies have been conducted, and for most of the population the risk of serious injury or death due to Covid is exceedingly small. Every individual should be allowed to conduct their own risk-benefit analysis (this is especially true for children and for individuals that have recovered from the virus with natural immunity) before making an important decision to use untested and experimental products. Please respect the health freedoms that are an important part of our culture in this country - and please stop interfering with doctor-patient relationships, and with the ability of patients to make decisions with regarding what they put into their bodies. In addition to the issues raised above - vaccine mandates are nonsensical and completely unnecessary. They do not protect anyone. Children, people with natural immunity, and vaccinated individuals have no risk of serious injury or death from Covid. No one needs a mandate to be protected - vaccines are available for anyone who wants one, and children and people with natural immunity don't need vaccines to be protected from Covid. Efforts to destroy our healthcare freedoms must stop immediately. If we don't stop this now, think about the horrible consequences that could follow. Thank you for taking these comments seriously.

Comments for Public Posting: I am utterly disappointed that a city that is supposed to be about love, equality and inclusivity would even consider a vaccine passport morally right or acceptable. If you make this acceptable you will alienate and discriminate against millions of people who believe in choice and medical freedom. This vaccine is proving to not be as efficient as the propaganda machine has sold the public. All of us who actually follow world economics and affairs realize this is a massive power grab, a transfer of wealth and a global criminal operation. I would hope that Los Angeles would be an example of freedom and equality. If you pass this you will be guilty of treason, and turning your back on all of our constitutional rights. It is illegal to mandate a non FDA approved product under EUA. You are ignoring the law. In due time, it will prove that you are on the wrong side of mankind and history. I hope and pray that someone in your council that has not been paid off by big pharma will speak out and be a true example of leadership. It is 100% unscientific to say that ALL people can get a vaccine and survive or not be injured. So you will be pushing and bullying people into a corner. Businesses will further crash into oblivion and Los Angeles will not be able to survive the crash. Unless that's the exact plan. It exacerbates the plan. The transfer of wealth will become easier and easier as less and less people support these mandates and passports. I feel sorry for the people who have felt bullied and pressured into taking a medicine that they may regret so they can keep a roof over their heads. Some have gone completely against their own convictions and sit crying as they cross their fingers and pray they don't die like the thousands who already have from taking this vaccine. I pray that you guys will do the right thing for society or you will be a part of the final nail in the coffin of the Los Angeles economy.

Comments for Public Posting: The nation of Gibraltar, which achieved a 99% vaccine compliance rate as of June 1, 2021, is now seeing an astounding spike in cases. The number of COVID cases per day has increased 2500% since June 1 in the latest bit of evidence that the vax regime is not all that it's cracked up to be.

New confirmed cases of Covid-19 in Gibraltar

Seven-day rolling average of new cases

Source: Financial Times analysis of data from Johns Hopkins CSSE, World Health Organization, UK Government coronavirus dashboard, Government of Peru, Public Health France and the Swedish Public Health Agency. **FINANCIAL TIMES**

Comments for Public Posting: Why does the City Council think it has the authority to MANDATE vaccine passports? The Constitution and the Bill of Rights gives us our freedoms and NO WHERE is it written that the government can MANDATE the people to do anything. This is an erosion of our rights by an overreaching and tyrannical regime- While politicians vehemently oppose Voter ID and actively encourage illegal immigration, even covid positive cases, it seems the very height of tyranny and oppression to demand vaccine passports for the Stakeholders of this community- I suppose the Council is hoping to get away with something unconstitutional until the laws and the courts rule against this measure- This move is unprecedented- we have had viral outbreaks in the past. Thousands have died of the flu and other diseases, every year- and no hysteria, no tyranny- why now? This is NOT about a virus- This motion has NOTHING to do with protecting people from a virus with a 99% survival rate- and EVERYTHING to do with taking away people's right to choose what they put in their bodies- and forcing the will of the government, which is to serve the people not control them, on the citizens of this City- This Council is trying to sneak Communism into this City by forcing businesses to "enforce" your radical agenda-

Comments for Public Posting: This needs to stop NOW. These vaccine mandates and mask mandates are bullshit!!! You can't force people to take an experimental drug that's not even FDA approved. If you want to start a civil war then bring it on!!! Half this country will be up your ass everyday. You can't force people to do anything against their will. You can't force county workers to take an experimental drug. Show us where you trump the Constitution of the United States????? You don't so stop your bullshit now or you'll have an even bigger mess on your hands. Americans aren't taking this shit anymore!!!!
