Comments for Public Posting: 1. Latest data shows that vaccinated can spread the disease just as easily as unvaccinated. Data out of Massachusetts CDC says 74% of people in recent outbreak were fully vaccinated. UK public health data shows that fully vaccinated people are 65% more likely to be hospitalized and 1540% more likely to die from COVID19. I sent links to these studies to the telegram stream. 2. A minimum of 10 teens confirmed dead after vaccine in the USA and hundreds others have severe side effects. 3. Without antibody tests, those who have natural and superior immunity who are at risk of side effects from the shot will be discriminated against under this regime. 4. CDC data shows that only 28% of african americans are vaccinated. They have a legitimate questions about the safety of these shots and history has shown them that they (especially) can't trust the government after being used as unknowing guinea pigs in the past. This measure is a tool of discrimination against this group. Look up the Tuskegee Experiment. 5. Applying a vax passport to retail locations is ridiculous. Are you trying to starve people who don't wish to get vaxxed or can't due to medical or religious beliefs? 6. Dr. Barbara Ferrer, LA County Health officer is not a medical doctor, and has no medical training. Is it even legitimate to call her a doctor as if she is NOT a medical doctor? If this recommendation is based on LADPH guidance, she is not qualified to guide us. ?? So you need a covid vax passport to enter any location but you could have any number of other diseases and illnesses and go anywhere. COVID has a death rate of less than 2% for the population as a whole, while other diseases are much more deadly. This is a foolish attempt at public health.

Comments for Public Posting: Council. Please look beyond the narrow pharmaceutical-based propaganda. If you were a nurse working on the COVID ward, you would understand that many of the cases are from those who have been fully injected, and that what people are calling DELTA is really ANTIBODY DEPENDENT ENHANCEMENT aka Vaccine Failure. Watch Dr. Peter McCullough discuss this. Watch ex-Pfizer executive Dr. Michael Yeadon. Watch anything except the pharma news. Even the LA times is owned by a former pharma exec. What you're proposing is against the Nuremberg Code. My mother died from a flu vaccine that was given to her in 2000. She fainted after the shot, and later suffered a major brain hemorrhage. Neurological damage is know to occur as an adverse event in the elderly with the flu shots. I have 2 copies of the MTHFR genetic variant. The combination I have make me detoxify from adjuvants and toxins about 30% of most people. I have spent decades getting myself healthy because of this condition. Since I have 2 copies, I inherited 1 from my mother and 1 from my father. I got 2 of the worst kinds, but many people have 1 copy, and copies that are not as debilitating. Do you want us all to take these experimental toxic medical procedure, when the survival rate for COVID even in my age group (70 this year) is close to 99%, and for which there are known preventatives, and treatments. Do you want me to die? Your proposal is draconian, unconstitutional, abusive, and sick. SHAME ON YOU. There is no room for medical tyranny in a free society. Shame on you.

Comments for Public Posting: 1) Dividing the county into two segregated groups of vaxed and unvaxed is a detriment to the community and would create a unnecessary divide. Actions like this push may us to civil war. 2) Latest data shows that vaccinated can spread the disease just as easily as unvaccinated. Data out of Massachusetts CDC says 74% of people in recent outbreak were fully vaccinated. UK public health data shows that fully vaccinated people are 65% more likely to to be hospitalized and 1540% more likely to die from COVID19. 3) A minimum of 10 teens confirmed dead after vaccine in the USA and hundreds others have sever side effects. Thousands have died from the vaccine and you all know it. 4) Without antibody tests, those who have natural and superior immunity who are at risk of greater side effects from the shot will be discriminated against under this regime. 5) CDC data shows that only 28% of african americans are vaccinated. They have a legitimate questions about the safety of these shots and history has shown them that they (especially) can't trust the government after being used as unknowing guinea pigs in the past. When people find out that their relatives died because the government is beholden to big pharma and big pharma demanded the only answer to be a vaccine....there will be uprising. You have the opportunity to stay on the right side of this before the tide inevitably turns.

Comments for Public Posting: One definition of totalitarianism is the collective refusal to accept the obligation to truth, to reality, and this collective lie always begins with the leaders, who betray their duty to the truth and create a climate in which it becomes easier for others to do the same. They create a false reality through massive propaganda which they force others to accept through fear, manipulation, coercion, threats, and violence. This collective insanity, the refusal to be in reality, is the true pandemic. There had not been and is not now a pandemic. It's a hoax. It's a casademic as Reiner Fuellmich has shown a fraud perpetrated on us by the fraudulent PCR test. You board members have an obligation to the truth and to the good and rights of LA parents and students. If you do not stand up against this evil insanity of suffocating and traumatizing and abusing these children you will be held responsible by God for your cowardice. What are some of the lies Newsom has told, by both his words and actions, which has put you in this position of having to fight against child abuse and torture? Newsom lied and betrayed his office when he declared a state of emergency Newsom lied and betrayed his office when he mandated harmful and medically useless social distancing, masks, and the shutdown of countless school and businesses, all forms of domestic terrorism Newsom lied and betrayed his office when he mandated masks and social distancing for children in schools a form of child abuse. Newsom lied and betrayed his office when he promoted through coercion and bribery a poisonous medical experiment, saying it was safe and effective, even to children with zero chance of getting so-called Covid-19 Newsom is lying now and betraying all the citizens of California as he cruelly continues the fake state of emergency so The state and local districts can keep getting federal money, requiring employees to wear harmful masks, and as he continues to coerce children and other citizens to harm themselves with a poison injection that has killed thousands and injured hundreds of thousands, while illegally depriving citizens of informed consent and causing those who choose to behave in accordance with the real science, that is, reality to be scapegoated and treated like lepers. Newsom is not only incompetent and criminal; he is a totalitarian monster who should be removed from office immediately. If you do not fight against this mask mandate from children and do what you wanna legally permitted

to do which is to come up with a proposal that allows for mass choice, then you are no better than the monster Newsom.

Comments for Public Posting: I urge you all to REJECT this proposal. Let private businesses make their own decisions whether to host unvaccinated individuals or not. Mandating will cause further loss of revenue both to small businesses and tourism. It has been shown that COVID can be spread even amongst vaccinated individuals, so this decision is not science based. It will also disproportionately affect minorities, who have good reason to be suspicious of government officials seeking more and more control over individuals. Let's make level headed, science based decisions rather than introducing totalitarian restrictions just to follow what NYC is doing.

Comments for Public Posting: Dear Respected members of the Los Angeles City Council: As a voting, tax paying citizen of Los Angeles who wishes to remain anonymous for fear of reprisal, I would like to make my feelings on a proposed ordinance restricting certain indoor venues to those who can supply proof of "vaccination" known. 1st - many people have been advised by their primary care physicians not to take these gene therapies. Are these people supposed to live as second class citizens unable to do such things for their health as go to a fitness center for a workout? 2nd - I saw city attorney Mike Feuer on Yahoo finance this morning claiming that such an ordinance would only "incentivize" people to take a vaccine, this is FALSE, this is clearly a means of COERCION. Additionally, he blames the increasing case numbers as the fault of the unvaccinated when even DR. FAUCI has admitted that the vaccinated have as much viral load in their nasal passageways as the unvaccinated. So its a non-sequitor to claim that this is a pandemic of the unvaccinated. 3rd - This will hurt many struggling small businesses as many people who are adamant about not taking this still experimental medical treatment will simply refuse to give their business to such venues and locations that require proof of covid vaccination to enter. 4th - These mRNA vaccines - which as recently as June 2020 Moderna's SEC filings still indicated the FDA considered "gene therapies" (<https://www.sec.gov/Archives/edgar/data/1682852/000168285220000017/mrna-20200630.htm>) - were never tested on animals and have not concluded their FDA trials which are not scheduled to end until 2023. It is impossible to know what the long term adverse health effects might be. Additionally the VAERS system lists THOUSANDS OF DEATHS as well as TENS OF THOUSANDS of other serious adverse effects. 5 - the latest data out of Israel serious undermines the efficacy of the mRNA vaccines particularly the Pfizer vaccine. 6. The manufacturers have been exempted from liability by Congress should these gene therapies prove ineffective or adversely effect the health of those who have taken it. I do not agree with the false categorization of a proposed ordinance as "incentivizing" people to get the vaccine it is coercion plain and simply and therefore against the Nuremborg code and indeed US. Law. We shouldn't be coercing people who do not want to, to take a medical treatment which has not been fully tested. It is only EMERGENCY USE AUTHORIZED, and not fully approved yet! There are serious risks associated with taking these gene therapies. We by definition DO NOT KNOW what any long term adverse effects could be. We are being brainwashed by a constant drum of click bait fear porn in our online, print, and television media. This type of thinking is not based on the "SCIENCE." Indeed by isolating people further you are psychologically torturing them into compliance. I hope that you are well-meaning and not the pawns of some WORLD ECONOMIC FORUM GREAT RESET plan. In either case we the people are taking tally of the votes and sponsors of said ordinances. We will not forget at the ballot box nor in all other areas of life. DO YOU WANT TO BE ON THE RIGHT SIDE OF HISTORY?

Comments for Public Posting: I am writing to express my disappointment in this office for proposing any form of discrimination, all in efforts to maintain good optics. It's shameful, and is not the appropriate behavior of an elected representative. In supporting Vaccine mandates you would be ignoring evidence to suggest there is no justification to mandate a non FDA approved product. Both vaccinated and unvaccinated have been shown to carry the same viral load and both capable of spreading. There is no logic in this measure and it needs to be reevaluated immediately before going any further in the City Council. It's unfathomable for so many individuals who do not want or can not take this Vaccine. Are we second class citizens because we have a functional medicine approach, or have preexisting autoimmunity? Any mandate will be met with massive public opposition and you can be assured it will end in your administration's removal from your position of leadership. Let me remind you of your duty to preserve your constituents constitutional rights above all. Sincerely, A concerned citizen

Comments for Public Posting: Dear Board Members, I'm an 82 year old single woman who lived through the Hong Kong Flu pandemic in 1969 which killed 100,000 in the US and 1,000,000 worldwide while 500,000 rock enthusiasts gathered for a music love fest called Woodstock for 3 days and nights on a grassy muddy hill in Bethel, N.Y. We never experienced anything like lockdowns, wearing masks or mandated vaccines, not then, not ever, not until now. My father was a pediatric MD my grandfather was a GP, my aunt was a nurse and my cousin is also a nurse . As a family, we were always highly aware of our health. When I contacted the covid-19 flu in April 2020, they wouldn't let me in the hospital or even give me a PCR test because I wasn't sick enough, yet. So I took care of it myself with daily doses of 10,000 iu of vitamin D, 6,000 mil Vitamin C and Zinc tabs. All symptoms were gone in 48 hours. Why hasn't this simple procedure ever been suggested by the CDC or WHO or Fauci? There is something else going on here. First the virus was manipulated in the Wu-han lab in China with a "Gain of Function" procedure to make it contagious for humans as the perfect bio weapon. This is all coming out now in 4 congressional hearings with Fauci denying, contradicting and lying about the documented proof of gain-of-function while the records prove it and also show he is hugely invested in the vaccine and the virus with patent ownerships. Why haven't we heard about this? Why have all the European doctors who treated their patients successfully with Ivermectin and Hydroxychloroquine been silenced through censorship? Did you know that Dr. Yeadon, ex -Vice President of Pfyzer, Dr. Robert Malone, the inventor of the mRNA vaccine and Geert vanden Bossche, PhD, senior program officer for vaccine discovery at the Bill and Melinda Gates Foundation and many other accredited and notable doctors, scientists and professors have all advised CDC to stop the mass distribution of this vaccine immediately? Do you have any idea why? Do you care? I am a UCLA graduate and I am unvaccinated. What makes you think I don't know the science and am being selfish, irresponsible and ignorant? I plainly know the science and that is why I am and will remain unvaccinated. I have 100% immunity for life without a vaccine. This vaccine is not a one-size-fits-all and it was never properly tested and never approved by the FDA. Why would I

take a chance with such an unknown drug? So far there have been over 11,000 deaths from it and over 45,000 adverse side effects. And lastly, why should I let you have the power to mandate my drug intake or any of my personal health practices? You are NOT my father and I am not a child. This is my body and I have sole ownership of it. Don't you feel that way about yours? Freedom of Choice....that's the American way and that's what this is all about.

Comments for Public Posting: The idea of a vaccine passport is vile. It is out of an Orwellian novel or something done in Communist China. This is the United States, land of the free! This kind of segregation and discrimination will only lead to a society divided in half and to civil unrest. To force someone to take an experimental shot, which is causing death and great harm and injury to thousands of people, in order to go shopping or to a restaurant or a sports event or to anything at all is pure communism. You are turning Los Angeles into Nazi Germany. Although you have been able to protect yourself from liability legally, you will have to live with this on your conscience for the rest of your lives. I trust that some or most of you are good people with families that you love and that you wish them to be healthy and vital, there are many websites where you can go where you can see the damage that the shots have done to innocent people of all ages. Put an end to this coercion, why are you forcing people to hurt themselves, yes the chance of being hurt or killed from the shot is very high. Yet the numbers being reported are 100 times smaller than the actual numbers. Harvard did a study which showed that only 1% of vaccine injuries and deaths are reported to the CDC's VAERS reporting website which means that 45,000 deaths turns into 450,000 deaths, are you really OK demanding that people get this shot in order to live normal lives? Think about what you are doing, it is quite criminal. Thank You for not letting this abomination of liberty and freedom continue.

Comments for Public Posting: Dear Council: I went to your website today. I attempted to find a way to contact you. This is all I found—
LACouncilComment.com and it says that your website is under revision. I can only hope that this email actually reaches you. This morning I attempted to speak during public time. I called in before you were in session. I followed the instructions and pressed 'star 9'. I was informed by a mechanical voice that the council would be informed of my wish to speak. Imagine my shock to hear it announced at the meeting that there was no one left in line to speak. I would appreciate an answer to this email informing me of why I was denied my right to speak this morning. Here is what I wished to say publicly. Please record this in the public record so that my fellow citizens can read my comments. 1) dividing the county into two segregated groups of vaxed and unvaxed is a detriment to the community and would create a unnecessary divide. 2) Latest data shows that vaccinated can spread the disease just as easily as unvaccinated. It's not even really legitimate to call her a doctor as if she is medical rdoctor. If this recommendation is based on LADPH guidance, she is not qualified to guide us. My final observation---Dr. Barbara Ferrer-the L.A. County Health officer is not a medical doctor- and has no

medical training. It is not legitimate for this body to describe her as a medical doctor- it is false information, and leads the public to believe false information. The public should be informed- at any public hearing- that she is not qualified to render medical judgement or offer any kind of medical advice, whatsoever.

Comments for Public Posting: You seem to have forgotten that this is the United States of America. Instead you are turning it into Nazi Germany where people had to wear yellow stars and have papers to go anywhere. This country was founded on freedom and liberty, prohibiting someone from going somewhere in the city or county of Los Angeles because they have not chosen to participate in an Experimental shot that is killing and hurting thousands of people is nothing less than obscene! Especially when the whole virus has been a scam, the PCR tests are totally useless, some say 100% false positive, and the virus has not been isolated by anyone anywhere in the world. this fact it's coming out in lawsuits, one recently in Alberta Canada. Stop this foolish madness or you will see many people fall ill or die on your watch. Please wake up and stop this now!!!

Comments for Public Posting: I am very much opposed to the City Council's apparent desire to arbitrarily and capriciously discriminate against unvaccinated people. There is a tremendous amount of data confirming that vaccinated people spread the Delta varaint just as easily as unvaccinated people do. The Massachusetts CDC found that 74% of infected people in the most recent outbreak were fully vaccinated. UK public health data shows that fully vaccinated people are 65% more likely to to be hospitalized and 1540% more likely to die from COVID19 than the unvaccinated. The State of Israel has found that vaccinated individuals make up a large percentage of the newly infected people. It does not make sense to exclude unvaccinated people from grocery stores and other necessities, and is cruel, besides.
