To the honorable Plum Committee

Dear Sirs

Please consider what is happening here. We've had a magnificent open land space in our community for well over four decades. This space has served families, children and the community at large providing very healthy outdoor opportunities where we can ALL thrive.

Now there is a FOR PROFIT private institution that caters only to wealthy parents and their children. Yes this continues to perpetuate the long-standing bias towards the wealthy few against 50 times the population in the immediate area who will suffer at the loss of this wonderful amenity that currently is for all.

So my city has a vote that will determine whether you have the best interest of the greater good at your core or will pander to a few elitists that will selfishly and self servingly steal this wonderful open space from our community so that their already privileged children can have more.

That they claim to give us back 5 acres of 16 is a farce. If you look at their plan it is a walkway through the property. Trust me no one in the neighborhood is going to walk through this property amongst a soccer field and a football field and tennis courts filled with wealthy peoples children knowing that once again it's only money that counts and let's perpetuate super greed.

I myself happen to live in the hills above Weddington and came from a hard-working middle-class family and I put myself through college and I made something of myself on my own without the help of my parents. I would consider myself almost as wealthy as the people who want to steal this land for their own children. In my wildest dreams it wouldn't even occur to me to take this land away from a much larger community that could benefit in far greater ways than a private for-profit institution.

Try to picture yourself living across the street from the current beautiful open access nature and sports center. Now picture that all of this is taken from you. Now realize that even though you pay pretty high taxes you really dont have a say or as influential a voice as a larger money rich private institution. Then your quiet and serene neighborhood is now over run with white privileged kids that could care less if they sit in your front yards and smoke cigarettes, etc.

I don't think any of you realize how this would impact the immediate surroundings in the worst way possible. It's not like they don't already have a campus and they aren't already serving the smallest possible piece of our population and we are taking nothing from them.

I urge you to vote that we all contribute and take over this land for the community I would be happy to be a part of that movement for the greater good. I would be happy to contribute so that everyone's children can flourish not just a few.

My name is Nancy Rowe I live on Sunswept Drive and my telephone number is 818-990-2929. I do have experience in high design and development as I was Director of the team that put IBM's innovation centers in for them all over the world.
So, I do know a bad design when I see one.

As a resident of Los Angeles I urge you to follow your deepest instincts for the greater good.

Nancy Rowe

Dear Honorable PLUM Committee:

I urge the PLUM Committee adopt the nomination by the Cultural Heritage Commission on April 15th, 2021, without any revisions, for Studio City Golf and Tennis Club to be included in the list of Historical-Cultural Monuments according to the CHC staff findings as written. The CHC determined " that the property conforms with the definition of a Monument pursuant to Section 22.171.7 of the Los Angeles Administrative Code.

As a property that for generations has been open to everyone regardless of age, gender, and ethnicity for an affordable price without membership dues, Weddington Golf and Tennis is in a unique position between a public, municipal course and a private country club. Weddington Golf & Tennis complemented and supported surrounding suburban development in Studio City. Weddington Golf & Tennis stands out for is planned landscape, specifically, the number and application of over 350 palm, eucalyptus, and pine trees, to define the fairways.

Any proposed demolition of this excellent example of a post WW II Era recreational facility will result in a significant loss to the heritage of Studio City. I urge you to protect this iconic Studio City landmark for future generations.

Sincerely

Judy Robbins
