Summary: In a regular monthly meeting of the Westside Neighborhood Council, the board voted to support the proposed updates to the TDM program IF AMENDED TO incorporate a mechanism for community input to be considered in the selection of strategies applied by developers. (We have concerns that under the current updates, strategies could be selected based upon cost vs. effectiveness. Additionally, the draft language currently does not take into consideration any defining characteristics of the setting in which a project is to be located. Such factors may be key to understanding what types of strategies are most important (and may indicate that certain strategies should not be available to certain sites).
