Council File No: 21-0136

Comments for Public Posting: As a long-time resident of this neighborhood, I encourage your support for this designation. Northeast Los Angeles has over a century of unbroken history as a community rich in arts and artists. This history has featured a wide diversity of expressions. It is important that the depth of this artistry be recognized. Our history as a neighborhood includes a central role in the genesis and development of the Chicano Arts Movement. There are many young people (and adults) in Highland Park today who are unaware they are living in an area of cultural richness and that they have the option of continuing this heritage. Honoring our past has the potential to create a present in which all residents feel honored and empowered. Thank you.
