Comments for Public Posting: I do not consent to the vaccine passports as it is a violation of the California health and safety codes which state the right of individuals to determine what is done to their bodies. it is also in violation of the Nuremberg code which prohibit any form of coercion to make individuals participate in a medical experiment. This is complete violation of our basic human rights. The fact of the matter is that people who got the vaccine still got COVID so it doesn't do what it was designed to do clearly. Therefore there is no real purpose to say this will help people in any way. I command sovereign authority over my mind, body, and soul. I was created in the image of God and don't want anything artificial in my body that came from some unknown external force. The attempt to try to force this upon humanity and especially in America which we call the land of freedom is atrocity. I stand for individual freedom over ones own body and freedom to choose for self.

Comments for Public Posting: As far as the Covid vaccine goes: Many of us do NOT want it because we have friends and relations already injured (some quite gravely) by it. Some of us know friends and/or relations who have died shortly after being injected once or twice. Everyday there are non-stop news outlets saying we MUST get it. They are stating either cases are rising our there's a new variant. The man who created the PCR has said it was never intended for diagnostic purposes. Several baseless "positive" results come from several magnifications of what's on the swab. Several scientists got together to examine the swab and found random DNA. They asked the CDC for a sample of the virus and the CDC said, "We haven't been able to isolate it!" I thought, "If that's so, how could they make a vaccine? Meanwhile I listened to Doctors from around the world as most of the media here was just saying the same thing over and over: "Get the jab!, there will be a new normal!", etc. Geert Vanden Bossche and expert in the field of immunology stated: "You never start to vaccinate in the middle of a Pandemic; it will cause mutations!" Could that be the new variant they're are talking about? Professor and M.D. Sucharit Bhakdi of Midst, Belarus stated that this was a dangerous vaccine as did Dr. Chinda Brandolino of Argentina. Finally some brave American doctors began to speak up. Dr. Carrie Made (and many others said the same thing) "Covid is NOT a normal flu vaccine. It will change WHO were are and WHAT we are very quickly: It has 1) Synthetic RNA or DNA which will enter yours and replicate non-stop! 2) Nanotechnology of artificial intelligence: that will connect to cell towers etc. that can send signals to and from you WITHOUT YOUR PERMISSION 3) luciferase enzyme under the skin to scan you for vaccine verification. I SAY STOP THIS MAD PROGRAM NOW!! NO JAB AND NO PASSPORT. I cannot imagine the hell our children will be forced to live because of this. HAVE YOU TAKEN THE TIME TO THINK ABOUT THIS? DO ANY OF YOU CARE??

Comments for Public Posting: Dear City Council, Thank you for taking the time to read the responses being sent in regarding the vaccination ordinance. As someone whose personal health does not make me a good candidate for this vaccine, I would urge against any kind of sweeping mandates that force your citizens to receive the Covid vaccination. I have struggled with chronic illness the better part of my life and, in my experience, my doctor and I are the ones who have the intimate knowledge needed for situations like this. When I moved here, I never dreamed that my health conditions and the choices that I make in regards to my own personal health might deny me the ability to live and function here. Personal choice over our own bodies, the ability to live and to work, to not be kept out of grocery stores and other places that those of us without a backyard garden or farmland need to be able to go into in order to put food on our tables... These are all basic and important needs of everyone in your city, not just those that feel the vaccine was right for them. I personally know friends that have contracted Covid after being fully vaccinated. There is no one-size-fits-all solution for health and to approach it in that way marginalizes those of us that don't fit an (incorrectly) assumed norm. We have a right as Americans to make personal choices for ourselves. Education and open conversation will do more to further people's confidence than forced mandates ever will. I understand that the city council likely feels the need to make a move to combat the fear that has overwhelmed us in the last year and a half, but I'd respectfully ask you to make a better decision for all involved rather than sweeping mandates that try to fit all of your citizens into a convenient bucket as if we all face the same exact health concerns. Thank you for your time and your consideration.

Comments for Public Posting: As a concerned constituent I am asking you to examine your conscience and please do the right thing by the people of Los Angeles and Vote No on any measure to require vaccination passports in the City or County of Los Angeles. This fundamental assault on liberty if enacted will surely backfire. Any Vaccination Requirement to move freely in public would further divide the community. The use of force to increase vaccination rates will neither achieve its purported end nor help to protect citizens from this disease as it is neither respectable nor appropriate given the science backing this still experimental product. It would only serve to entrench already defined positions and stultify the conversation as the larger question of constitutional rights would take precedence. Any measure to segregate society along medical lines will bring about more complications and conflict and this attempt to railroad individuals into actions against their better judgment will further erode their trust in our institutions of governance. I strongly urge you to consider the ramifications of supporting any measures that blatantly abnegate human civil rights. The rights of minority groups need to be protected if we are to have a thriving culture. Thank you for your attention.

Comments for Public Posting: I urge you to OPPOSE VACCINE MANDATES AND VACCINE PASSPORTS for the following reasons: 1) CDC says: "Vaccinated people can still become infected and spread the virus to others." The purpose of a vaccine is to prevent acquiring or transmitting a communicable illness. EXPERIMENTAL GENE THERAPY SHOTS ARE NOT VACCINES even if approved by FDA. <https://www.businessinsider.com/who-says-no-evidence-coronavirus-vaccine-prevent-transmissions-2020-12?op=1> 2) SUCCESSFUL EARLY TREATMENT with multi-drug therapy prevents hospitalization and death by 85%. <https://pubmed.ncbi.nlm.nih.gov/33388006/> 3) Safe, affordable drugs are highly effective for PREVENTION, a solution for high-risk seniors and those with comorbidities. See compiled data here for one of these drugs: <https://ivmmeta.com> 4) Covid-recovered individuals should NEVER receive shots as it increases risk of serious adverse events. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8313055/> 5) The CDC has documented over 13,000 DEATHS and almost 600,000 ADVERSE EVENTS related to the shots. Find data here: <https://openvaers.com/covid-data>. These experimental shots in 4 months surpassed total cumulative deaths and severe adverse events from all combined vaccines over the last 30 years. RED FLAG! 6) These vaccines have KILLED FOUR TIMES the amount of people who died in 9/11 TERRORIST ATTACKS! VAERS reports catch an estimated 1-10% of actual events according to a Harvard Study. <https://digital.ahrq.gov/sites/default/files/docs/publication/r18hs017045-lazarus-final-report-2011.pdf> Most vaccines/ drugs are pulled from the market after 25-50 deaths. 7) Hear the stories of people who have been injured or died after taking the shot: <https://1000covidstories.com> Look them in the eyes and tell them they don't matter. 8) Mass vaccination during a pandemic DRIVES MUTATION OF VARIANTS. At this point more vaccinated individuals will only help create VACCINE-RESISTANT SUPERVIRUSES. This is what happens with overuse of antibiotics driving antibiotic-resistant bacteria. <https://undercurrents723949620.wordpress.com/2021/07/20/the-unvaccinated-are-not-fueling-covid-variants/> 9) Ethical doctors took an oath to "above all do no harm" yet are SILENCED and CENSORED for demanding legitimate long-term safety studies. 10) Bodily autonomy is a BASIC CIVIL RIGHT. Individuals have a right to make a private, personal decision to take the shot or not based their own health history after an informed consent risk versus benefit conversation with their doctors. 11) STOP PRACTICING MEDICINE WITHOUT A LICENSE by prescribing one-size-fits-all medicine for the public. Dr. Fauci / FDA / CDC / LA BOS / LA CC: you are not our doctors! IT'S NOT YOUR JOB to enforce "public health" mandates for government officials who are also NOT OUR DOCTORS. 12) If the public saw evidence that shots worked we would bang down doors to get them! Instead we are being bribed, coerced, threatened, bullied, ostracized and discriminated against! Shots and passports are a gateway to ever-growing medical tyranny with boosters, testing, quarantining, surveillance, etc. WE DO NOT CONSENT AND WE WILL NOT COMPLY. 13) As a women's health specialist I am HORRIFIED with mandates for children, pregnant women and child-bearing age women without adequate long-term safety studies. What happened to "My Body, My Choice?" FORCED MEDICAL TREATMENTS create a MEDICAL RAPE CULTURE. Your silence or collusion is outright VIOLENCE AGAINST WOMEN AND CHILDREN. 14) The African-American community has the lowest vaccination rates, and mandates/passports will HARM OUR AFRICAN-AMERICAN COMMUNITY THE MOST. If you think African-Americans aren't "educated" enough about vaccines you are RACIST. If you think promoting a two-tiered SEGREGATED, DISCRIMINATORY society based on vaccine status is a good idea YOU ARE RACIST. If you think unvaccinated African-Americans are super-spreaders of disease YOU ARE RACIST and you sound like NAZIS who propagandized Jews as SUPERSPREADERS of disease. YOU ALREADY HAVE BLOOD ON YOUR HANDS by pushing mandatory shots which cause strokes, heart attacks, clots, seizures, neurological and autoimmune diseases, permanent heart damage for teenagers, miscarriages, birth defects, infertility, and death. You are not immune to civil and criminal court cases or class action suits against you both personally and professionally. Playing dumb by saying you just followed orders will not get you out of paying for your crimes. YOU WILL EVENTUALLY BE HELD ACCOUNTABLE like the doctors in Nazi Germany for your collusion. I urge you to course correct and STOP THE MANDATES AND PASSPORTS NOW! BE THE SOLUTION! HEAR THE PEOPLE! DO WHAT IS RIGHT! WE SEE YOU AND WE WILL NEVER FORGET. Thank you for your time and attention.

Comments for Public Posting: I am in full support of a vaccine mandate for all indoor activities in LA. I'm sure you are getting alot of angry backlash on this claiming it to be "segregation" or "anti-freedom". It's not. It's immunization records and we've been doing it for years. You need to have certain vaccines to enter college, the military, etc. It's nothing new. No time for half measures, let's do a full mandate for indoor activites, enforce it, and make it for the fully vaccinated, not just 1 dose. Thank you.

Comments for Public Posting: Do you remember the oath you took when elected to office as a public servant? “I do solemnly swear (or affirm, as the case may be) that I will support the Constitution of the United States and the Constitution of the State of California and the Charter of the City of Los Angeles, and that I will faithfully discharge the duties of the office of (here inserting the name of the office) according to the best of my ability.” Where in the Constitution of the United States or the State of California does it say that humans have no rights over their bodies, that they have to be forced to receive certain drugs to be able to participate in society, to shop for food for their family? Where does it say that people's private medical information should have public access by strangers? That creating a two-tiered society based upon medical discrimination is just or desirable? Did you ever learn in school about the Nazi's takeover of Germany, how Hitler created a two-tiered society where friends and neighbors turned against Jews because they were told they were vectors of disease? Did you learn about the Nuremberg Code that was signed after World War II to prevent the medical atrocities that were performed on consenting humans from ever happening again? Do you know what happened to the doctors and nurses who forced these procedures and drugs on Jews? Yes, they were put to death even though they said they were just following orders. Who are YOU taking your orders from?? Please think also about how this ordinance would effect the lower income and people of color, those with medical conditions that prevent them from receiving the shot, those with prior covid who now have robust immunity and actually would be injured by receiving the shot. How are they to shop for food and basic supplies? Are you assuming everyone can afford grocery delivery services? Have you actually read or researched into the science about this virus? About the rampant and serious side effects - including DEATH of over 45,000 people FROM THE SHOTS themselves? We have both prevention and early drug treatments that have been proven safe and effective. This is backed by numerous scientific studies and articles that have come forth in the past year. Interestingly, these prevention treatments (Vitamin D, Zinc, Hydroxychloroquine) and early illness treatments (Ivermectin, IV Vitamin C, Budesonide) have been outlawed in many hospitals and discounted by our current government. This is an atrocity, as

thousands of deaths could have been prevented. Please consider researching the science of Dr. Luc Montagnier (virologist), Dr. Michael Yeadon (ex-VP of Pfizer), Dr. Peter McCullough (internist, cardiologist, epidemiologist), and Dr. Vladimir Zelenko (has successfully treated 6,000 patients with Zelenko protocol) as a start. And now, the latest research is showing that the vaccinated are actually carry higher viral loads in their nostrils than the unvaccinated. Please, honor your oath to protect the Constitution. The vaccine requirement ordinance and accompanying vaccine passport tracking is a hair's breadth away from Communist China's social credit system. Is this the world you want to create for your family and children? Vote against this ordinance.

Comments for Public Posting: I strongly oppose the Covid-19 Vaccination Requirement Ordinance. The CDC recently announced that the vaccinated transmit the virus just as easily as the unvaccinated. Both the vaccinated and unvaccinated carry similar viral loads and can equally transmit the Delta virus. A growing percentage of people in Los Angeles who are vaccinated are getting the Delta variant. The percentage keeps climbing, from 20% of all identified cases in June, to 30% end of July; August is not reported yet, but it's on a steady climb. Vaccination alone won't stop the rise of new variants and in fact could push the evolution of strains that evade their protection. The emergence of a partially or fully vaccine-resistant strain and its eventual establishment appears inevitable. Contrary to Pfizer assumptions, mRNA does not stay in muscles, and S-protein travels into bloodstream (11 subjects out of 13 had S-protein in blood, according to Pfizer's own biodistribution study for Japanese Government). S-protein circulating in the blood is the reason for blood clots, bleeding, and myocardia. From their own literature, sperm counts are lowered post vaccination, and there have been many reports of miscarriages after receiving the vaccinations. A study out of Israel shows that Israelis who were vaccinated were 6.72 times more likely to get infected after the shot than after natural infection (those who had recovered from Covid.) Those who are vaccinated make antibodies against the spike proteins only, whereas the naturally infected make antibodies against many parts of the virus. Safer alternatives exist, such as ivermectin and hydroxychloroquine. Naturally boosting the immune system is the greatest defense, including a healthy diet and exercise, supplemented by Vitamin C, D, A, zinc, and glutathione. And, practically speaking, a vaccine requirement ordinance would unfairly impact businesses; businesses would incur the liability if they admit customers who are not vaccinated, and if they don't, they would be at a competitive disadvantage with those businesses that do. Also, if markets and other convenience stores require proof of vaccination, it would unfairly impact low income people would have trouble traveling to another county to get what they need. I urge you to vote NO on the Covid-19 Vaccine Requirement Ordinance. Thank you. Kathleen Gildred

Comments for Public Posting: This Ordinance is attempting to violate our Freedoms protected under the California Constitution, The CA Patient Bill of Rights, The USA Constitution, the Unruh Act, and the Civil Rights act of 1964. The California Constitution Protects people's right to medical freedom, right to equal protection under the law. The CA Patient Bill of Rights Protects people's right to refuse lifesaving treatment, refuse medical research, and refuse experimentation. The Unruh act outlaws all arbitrary discrimination from the public and private organizations whether unintentional or intentional. The Civil Rights act of 1964 prohibits any federally funded organization from participating in the discrimination of personal characteristics. All these laws have been established LONG after the 1903 smallpox case that the City Council is determined to cite the 1903 smallpox laws. These century old laws were unconstitutional and causes great harm to this society. The 1903 laws encouraged Racial Cleansing. These laws were precursors to the 1913 Eugenics Movement, and was an inspiration to the laws set by Naziz during the prosecution of people in the Holocaust. These laws are antiques and fossles of the darkest shadows of this country. We the people are opposed! You work for us! Informed consent and medical freedom or our rights and this would take those rights away!!!

Council File No: 21-0878

Comments for Public Posting: To the Los Angeles City Council Members, California Civil Code 51 states that "all individuals are equal regardless of medical condition and are entitled to full and equal accommodations in business establishments." Instituting a "Vaccine Passport" is a serious violation of the California Civil Code, the U.S. Constitution and the Nuremberg Code. What this Board is proposing is reminiscent of "SHOW ME YOUR PAPERS PLEASE!" in Nazi Germany! The CDC's Vaccine Adverse Events Report System (VAERS) released data Friday showing a total of 595,622 reports of adverse events from all age groups following COVID vaccines, including 13,068 deaths and 81,050 serious injuries between Dec. 14, 2020 and Aug. 13, 2021. Her is the link:
https://childrenshealthdefense.org/defender/vaers-cdc-deaths-adverse-events-covid-vaccines-booster-shots-september/?utm_source=salsa&eType=EmailBlastContent&cid=7df8e21-8381-44cb-9882-794d1ff13f51 This Vaccine Passport is the pre-cursor to a digital infrastructure that not only controls entrance into indoor spaces, but controls education, employment, travel, finances, and potentially all movement or interaction in society. Vaccine Passports violate the very first principle of the Nuremberg Code of Ethics which states that informed consent of the human subject is required before receiving an experimental medical intervention. The true facts of possibility of illness and death as a result of the Covid vaccine are not being given to an individual before vaccination. The Vaccine Passport will not address the problem of the Covid 19 outbreak. Those who take the vaccine can still get and transmit the virus. Currently, blame is placed on the people who choose not to take the vaccine, claiming with no scientific backing that the pandemic is a "pandemic of the unvaccinated" when currently fully vaccinated people are still dying from Covid and filling up hospitals. This labeling is reminiscent of the same hate stirred up in the 1930s and 1940s, blaming Jews for spreading diseases they did not have. The Vaccine Passport violates medical privacy and makes private medical matters public. The Vaccine Passport will hurt small business owners when their customers will no longer be allowed in their stores. Once we give up our rights, they can add any booster to this ordinance and those who do not want to take another vaccine such as a third or fourth booster. It is now being said that boosters may be needed every 8 months. The Vaccine Passport is discriminatory and will bring segregation back as it has already started to do. Those who are not vaccinated will not be allowed to participate in society as those who have been vaccinated. The Vaccine Passport will breed more hate in Los Angeles. It will create a two-tiered society like what occurred in Nazi Germany where Jews were used as a scapegoat. They were called disease spreaders. This Vaccine Passport blames the people who choose not to take the vaccine claiming with no scientific backing that the pandemic is a "pandemic of the unvaccinated" when currently fully vaccinated people are still dying from Covid and filling up hospitals. Labeling someone an anti-vaxxer merely because they have questions surrounding a new experimental shot with no long term studies conjures up the same hate as "dirty Jew" did in the 1930s and 1940s, blaming Jews for spreading diseases they did not have. I URGE EACH ONE OF YOU TO COME TO YOUR SENSES AND REFUSE THIS PROPOSED BLATANT DISCRIMINATION!!

Comments for Public Posting: It's difficult to understand how a Vaccination Ordinance can be enforced for an experimental vaccine that has a high number of related deaths and adverse events that don't seem to be well or fully publicized. This disregard for known issues and the enforcement of a Vaccine Passport shows lack of respect to our citizens right to be informed and freedom of choice without punishment. In addition, the enforcement of Vaccine Passports will certainly cause further damage to the survival of our small businesses, fitness centers, restaurants, stores and the like, and subsequent harm to the mental and physical health of those who aren't vaccinated regardless of reason. I'd like to see more investment in educating and helping our citizens to stay healthy to increase our survival from COVID-19 and developing strains rather than spending money to enforce an experimental vaccine when there is NO validated information on the long term affects. I strongly urge you NOT to vote "yes" on Vaccine Passports that will unnecessarily create a cost to enforce in more ways than one. This ordinance violates the supreme law of our country and our state and will cause extreme harm to our economy and citizens. The state of California has been the hardest on it's businesses and citizens, yet shows no better results than other states that have been more understanding of our rights and less restrictive.

Comments for Public Posting: I know that you are facing an important decision now, and I trust that you don't take this decision lightly. You have a responsibility for this City, its people, its economy and the public health. And all of our civil rights, as well. After all, the facts need to be right, or else the legislation will just turn out to be a move for the City Council to enforce an apartheid system of medical segregation, which will in effect vilify people who choose to have autonomy over their bodies, and take care of their health in a different way, often under doctor's orders. This is America. We all can feel in our bones what it is like to be discriminated against – as Blacks, Latinos, gays, Asians, Armenians, Jews, and new immigrants. I am certain that you don't want to make this move without good reason. ***Therefore, I think it is important that we address the basis for the argument that the unvaccinated are causing the high rate of disease, and thus should be removed from public places for the greater good of the public health. ***When we take a hard look at the facts – as opposed to the narrative we are being presented – we can see that there are serious problems with the logic that the unvaccinated are ill and are symptomless carriers, while the vaccinated are well and safe to be around. Please consider this information and take it in. ***In so doing, you will see that you must reconsider the problem you are solving, and vote No on Vaccine Requirement Ordinance #21-0878*** (All of the following was found online. For lack of time, I have not dug out all the sources.) The commonly used PCR test was stated by its inventor to not be valid, because it shows as positive when you have Influenza A & B & adenovirus. Even the FDA has admitted the PCR test is not valid. It was not based on the SARS-CoV2 virus. But it's still being used. The PCR test has not even been used in a valid way – it is run at 45 cycles (akin to exponential magnification) – driving up the numbers of who was & is ill, to show many false positives. This has caused us to overstate the numbers of unvaccinated ill throughout the time of COVID. Those who have tested positive have been called “cases”, instead of what is normal in health, that a “case” is a person who has observable symptoms. Also overstating the numbers of unvaccinated ill. Now people who are vaccinated are not tested routinely (with the stated presumption that they are well), while there are situations where the unvaccinated are tested regularly (with presumption that only they might be ill). However, the CDC has said outright that the vaccines don't prevent COVID, they just reduce the severity of illness. (Note: the drug Ivermectin will do that more safely.) If the vaccinated are given the PCR test, it is run at 28 cycles (which is more valid), while the unvaccinated are given a PCR test run at 45 cycles (much higher rate of false positives). Again overstating the numbers of unvaccinated ill. (Source: CDC) The CDC is only tracking those who had the shot if they are admitted to hospital or die. If treated as outpatient, they are not included in the number of people ill with COVID. Which drives down the number of vaccinated who are counted among the ill. <https://www.cdc.gov/vaccines/covid-19/health-departments/breakthrough-cases.html> The CDC has said outright that the vaccines won't prevent transmission of COVID. See interview at: <https://newsrescue.com/cdc-director-inadvertently-destroys-argument-for-vaccine-passports-by-surprisingly-saying-vaccines-do-not-prevent-transmission-video/> The data coming out of Israel, where there is a high vaccination rate (~80% of adults, Pfizer), is that 50% of those with COVID now had been VACCINATED. <https://wallstreetparade.com/2021/08/israels-director-of-public-health-stuns-tv-viewers-with-statement-that-50-percent-of-new-covid-cases-are-among-fully-vaccinated/> In Israel, data show 85% to 90% of COVID-related hospitalizations are among the fully vaccinated & the fully vaccinated also account for 95% of severely ill COVID-19 patients. (Bloomberg 8/1/21, American Faith 8/8/21) This is not the only country which is finding the vaccinated are the ones who are ill. A groundbreaking preprint paper by the prestigious Oxford University Clinical Research Group, published 8/10/2021 in The Lancet, found vaccinated individuals carry 251 times the load of COVID-19 viruses in their nostrils compared to the unvaccinated. While moderating the symptoms of infection, the shot allows vaccinated individuals to carry unusually high viral loads without becoming ill at first, potentially transforming them into presymptomatic superspreaders. https://papers.ssrn.com/sol3/papers.cfm?abstract_id=3897733 The standard in immunology is that if the vaccine does not kill a virus, the virus is prone to mutate. And so there is a good likelihood that the variants we are seeing are actually being driven by the existence of the VACCINATED. PLEASE VOTE NO.
