### CITY OF LOS ANGELES

INTER-DEPARTMENTAL CORRESPONDENCE

0590-00098-5213

Date: August 25, 2021

To: The City Council

From: Matthew W. Szabo, City Administrative Officer

## Subject: 2021-22 APPROPRIATIONS LIMIT (C.F. 21-0600)

## RECOMMENDATIONS

- 1. Provide the public, in accordance with Section 7910 of the Government Code, the opportunity to review the attached documentation for at least 15 days before adopting an appropriations limit for 2021-22.
- 2. Adopt the following factors to calculate the appropriations limit for 2021-22:

| Population Percent Change: City | -1.29% |
|---------------------------------|--------|
| Nonresidential New Construction |        |
| Percent Change: City            | 8.90%  |

3. Adopt \$7,173,171,778 as the appropriations limit for 2021-22.

### SUMMARY

Section 7910 of the Government Code of the State of California requires that the governing body of each local jurisdiction establish its appropriations limit for the following fiscal year pursuant to Article XIIIB of the State Constitution (Gann Initiative). The Gann Initiative limits the amount of revenue that can be appropriated in any fiscal year, which is applicable to revenues that are referred to as "proceeds of taxes." The limit adjusts annually for population growth, inflation/per capita income or changes to nonresidential new construction, and other factors. Certain appropriations are exempt from the Gann Limit, such as voter-approved debt, court orders, and federal mandates.

The City of Los Angeles must make the documentation used to calculate the appropriations limit available to the public fifteen days prior to adopting the limit.

Therefore, in addition to submitting this report to the City Clerk for City Council action, this Office is transmitting the documentation to all certified neighborhood councils.

When adjusting the annual appropriation limit, the City has the discretion to apply either the inflation/per capita income rate or the change to nonresidential new construction along with the population change and other factors. If the City applies the inflation/per capital income rate, the 2021-22 appropriation limit would be \$6,964,090,789. If the City applies the change to nonresidential new construction, the 2021-22 appropriation limit would be \$7,173,171,778. Both of these amounts exceed the \$4,714,764,906 in actual appropriations that are subject to the limit in the 2021-22 Budget. Attachment 1 and 2 of this report provide the detailed calculations for each approach. After reviewing both approaches, this Office recommends using the nonresidential new construction rate for the calculation of the 2021-22 appropriations limit. The City's annual financial audit will review this calculation in 2021-22.

Attachment 3 to this report includes documentation of the base year and subsequent years' appropriations limit calculations.

# FISCAL IMPACT STATEMENT

There is no fiscal impact in adopting the recommendations in this report.

#### 2021-22 BUDGET APPROPRIATIONS SUBJECT TO LIMITATION

## \$4,714,764,906

**CITY OF LOS ANGELES** Calculation of Appropriations (Gann) Limit (Article XIIIB of the State Constitution)

## A. Determination of Base Year

- 1. **Original Determination.** The December 4, 1980 report from the City Administrative Officer (CAO File No. 0230-02771), adopted by City Council December 22, 1980 (C.F. 78-5568-S2) and concurred by the Mayor December 30, 1980 was the basis for the original determination of the base year.
- 2. Contributions to Retirement Santa Barbara Taxpayers Association versus County of Santa Barbara (194 Cal. App. 3d 674--review denied November 18, 1987). Assumption #3, Attachment I of December 4, 1980 report was negated by this case whereby it was determined that contributions to a retirement fund constitute appropriations subject to limitation and are not considered "indebtedness." The City had previously deducted contributions necessary to meet any unfunded liability existing on January 1, 1979. Similarly, payments for leasebacks are not considered "indebtedness." Attachment 3, section D under "LESS APPROPRIATIONS NOT SUBJECT TO LIMITATION" are restored.
- 3. **Water and Power Revenue Transfers.** Assumption #2, Attachment 1, indicates that transfers of surplus funds from the Water and Power Department are "proceeds of taxes" except for reimbursement for services provided. An annual review is conducted to ascertain the costs of services provided to the Department of Water and Power by the Controller, Office of Finance-Treasurer, and Personnel Department.
- 4. **May Adopted City Budget.** The City adopted the 1978-79 Budget in compliance with Charter requirements that a budget must be adopted by the Council by June 1. Assumption #1, Attachment 1, indicates that the adopted budget was used to determine appropriations subject to limitation for 1978-79. This was the conclusion of the City Attorney in a February 15, 1979 report to the City Administrative Officer (page 19) that "... any authorization which existed during the fiscal year 1978-79, including the Budget in effect until July 24, 1978 and interim appropriations during the same fiscal year from the Reserve Fund subsequent to the adoption of the Budget, would be considered 'appropriations subject to limitation' within the meaning of Subsection (b)" of Section 8.
- 5. **Interim Authorizations added to base.** Council File 78-5568 and S1, adopted by the Council on June 25, 1979, provided for various appropriations that added to the 1978-79 base as follows (see Attachment 3 for additions):

- a. Excess General Fund revenues subject to limitation. The total appropriation of \$40,470,163.89 was reduced to \$30,246,692 by applying a factor of 88.5% to the interest earnings portion.
- b. The end-of-year Reserve Fund transfer of \$971,614.94 was reduced to \$859,879 by applying a factor of 88.5%.
- c. For-Hire Trucking revenues of \$8,310.75 exceeding the budget were appropriated.
- d. Section B is self-explanatory. Section C includes over 30 items that were appropriated from the Reserve Fund throughout the year, exclusive of appropriations for non-limited items (primarily grant advances), for a total of \$9,118,967. Section D is self-explanatory.
- 6. **Franchise Fees Santa Barbara County Taxpayers Association versus Santa Barbara County** (209 Cal. App. 3d 940 -- review denied 1989). This case determined that franchise fees are not "proceeds of taxes." In light of this decision, the City reduced the base by eliminating the amount budgeted for Franchise Income (\$3,549,000) and excess General Fund revenues attributable to Franchise Income (revenues of \$4,510,290 exceeded the budget estimate of \$3,549,000 by \$961,290). It is noted that these adjustments do not impact the factor of 88.5 percent, which is applied to interest earnings, etc.
- 7. **Revised Base Year.** The base year was revised as follows:

APPROPRIATIONS SUBJECT TO LIMITATION December 4, 1980 Report (C.F. 78-5568-S2)

| 1978-79 Base Year:                                     | \$763,061,903 |
|--|---------------|
| Section A.2. (above)                                   |               |
| Restoration of contributions to unfunded liability     |               |
| of retirement systems                                  |               |
| <ol> <li>City Employees' Retirement Systems</li> </ol> | 28,558,915    |
| 2. Fire and Police Pensions Systems                    | 73,878,573    |
| Restoration of contributions for lease obligations     |               |
| 1. Convention Center Authority                         | 2,558,130     |
| 2. Public Facilities Corporation                       | 4,700,000     |
| 3. Los Angeles Mall                                    | 1,966,045     |
| Section A.6. (above)                                   | (4,510,290)   |
| Revised Base: 1978-79                                  | \$870,213,276 |

# B. Annual Adjustments

1. <u>Population</u>. Prior to the passage of Proposition 111 on the June 5, 1990 ballot, the City used the change in the City population as an adjustment factor each year. Proposition 111 provides that the City may choose either the increase in the City or County population. While the City did not retroactively change the adopted appropriations limit for the years prior to 1990-91, the factors were applied for the limits from 1986-87 to 1989-90. This action was taken in order to have a modified base that was consistent with the newly approved legislation to calculate the limit for 1990-91.

The State Department of Finance provides a population number and the population percent change factor each May 1. Though the population number is usually adjusted the following year, it creates an erosion as the adjustment is generally upward. Below is a listing of adjusted population amounts through 1989 reported by the State Department of Finance. The amounts after 1989 should be adjusted at such time as the City recalculates the limit for all years after that date (when factors are available for the change in nonresidential new construction - see paragraph 2).

| Year              | CITY      |          | соц       | JNTY     |
|-------------------|-----------|----------|-----------|----------|
| (As of January 1) | Amount    | % Change | Amount    | % Change |
| 1978              | 2,899,690 |          |           |          |
| 1979              | 2,930,267 | 1.05     |           |          |

2. <u>Cost of Living</u>. Prior to the passage of Proposition 111 on the June 5, 1990 ballot, the City used the lesser of the United States cost of living (CPI) or California per capita personal income change for the annual calculation. Proposition 111 provides that the City may choose either the California per capita personal income change or the change in nonresidential new construction on the local assessment roll. While the City did not retroactively change the adopted appropriations limit for the years prior to 1990-91, the factors were applied for the limits from 1986-87 to 1989-90. This action was taken in order to have a modified base that was consistent with the newly approved legislation to calculate the limit for 1990-91. The following is a listing of the annual factors provided by the State Department of Finance:

| Year    | Lesser Factor      | % Change | Per Capita<br>Income % Change |
|---------|--------------------|----------|-------------------------------|
| 1979-80 | CPI                | 10.17    |                               |
| 1980-81 | Per Capita Income  | 12.11    |                               |
| 1981-82 | Per Capital Income | 9.12     |                               |
| 1982-83 | CPI                |          | 6.79                          |
| 1983-84 | Per Capita Income  | 2.35     |                               |
| 1984-85 | CPI                |          | 4.74                          |
| 1985-86 | CPI                |          | 3.74                          |
| 1986-87 | CPI                |          | 2.30                          |

| 1987-88 | CPI | 3.04 | 3.47 |
|---------|-----|------|------|
| 1988-89 | CPI | 3.93 | 4.66 |

|         |               | Per Capita |        |          |
|---------|---------------|------------|--------|----------|
| Year    | Lesser Factor | % Change   | Income | % Change |
| 1989-90 | CPI           |            | 4.98   | 5.19     |

Use either Per Capital Income or Nonresidential New Construction

| Year    | Lesser Factor          | Per Capita<br>% Change | Income % Change |
|---------|------------------------|------------------------|-----------------|
| 1990-91 | Per Capita Income      |                        | 4.21            |

- 3. <u>Annexations</u>. The City adjusts the appropriations limit annually to reflect the negotiated property tax transfer with the County or other jurisdiction for annexations, de-annexations, or other jurisdictional changes. Such changes have not been significant to date.
- 4. <u>Transfer from "Proceeds of taxes" to fees</u>. When a new fee is imposed for an existing service or a fee is increased to recover a proportionally greater amount of the cost of a service, the appropriations limit must be reduced since it is presumed that "proceeds of taxes" are being replaced with fees to finance the service. The methodology used to reduce the limit is to deduct the year-to-year increase in the cost of the service from the increase in revenues from fee increase adjustments or the prior year cost of the service from the new fee.
- 5. <u>Transfer of Financial Responsibilities</u>. Whenever the financial responsibility of providing a service is transferred between governmental agencies, they are supposed to adjust their limits by an agreed upon amount. In practice, however, the agency that is to adjust its limit downward very likely will not agree to an amount. The City may be able to adjust its limit for such transfers in the future, e.g., the transfer of the financial responsibility of property tax administration and booking of prisoners, which occurred in 1990-91.

# C. Appropriations Subject to Limitation -- Reserve Fund Transfers

The December 4, 1980 report from the City Administrative Officer and subsequent reports through 1988-89 counted transfers from the Reserve Fund either as part of the Budget (proportionately, as a ratio of General Fund "proceeds of taxes" to total General Fund revenues) or on an interim basis against the appropriations limit. In response to a request from the City Administrative Officer, the City Attorney reported (Opinion No. 88:23, January 26, 1989) that transfers from the Reserve Fund (or by inference, the use of any available balance) do not count against the appropriations limit. All excess revenues (the amount above the Budget estimate) continue to be counted against the limit in the year received when they are appropriated.

# D. Calculations for Annual Appropriations Limit

Calculations for the annual appropriations limit are as follows:

| REVISED B | ASE 1978-99 (see paragraph A.7.) | \$<br>870,213,276 |
|-----------|----------------------------------|-------------------|
| 1979-80   | Population Change - 1.05% times  | 11.33%            |
|           | CPI Change - 10.17%              | \$<br>968,808,440 |

|         | Reduction in limit due to change in financing from other revenues to user charges:  |   |
|---------|---|---|
|         | <ul> <li>Harbor Fire Protection.</li> <li>Budget revenues (\$1,650,000) less<br/>difference between 1979-80 cost</li> </ul>   |   |
|         | (\$4,203,704 and 1978-79 cost<br>(\$3,847,469)<br>(2) Animal Regulation - dog license   | (1,293,795)                               |
|         | late payment fee (new)  | <u>(260,000)</u><br><u>\$ 967,254,675</u> |
