**Comments for Public Posting:** Please pass this ordinance to ban ghost guns. Ghost guns are untraceable firearms that anyone can buy in parts and assemble at home. The parts don't have a serial number so a ghost gun made from a kit is nearly impossible for law enforcement to trace. Buyers of ghost gun kits evade background checks, making them popular among people who intend to use them in crimes. Ghost guns are increasingly being used in robberies, mass shootings, and homicides across the country. They undermine California strong gun laws and make us all less safe.
