**Comments for Public Posting:** Please please please and please pass this restriction. Our street is not suitable for living anymore. Our street N sherman grove in Sunland 91040 has only 1 side of street parking. 2 VERY LARGE RV's parked. Each has 1-2 cars, permanently parked. We who have house we bought by working hard all our lives and pay property taxes on top of state and federal taxes have no where to park coming home from long work hours, not mention an hour of commuting in traffic ic. They are creating a very dangerous situation. All views are blocked. People passing by honking constantly. On top of that, they are playing very loud music, doing car repairs, general loud noise all day long. Some of us work from home because of COVID. We can't work in this. Foul language music! My son asked what is a "gang banger". He heard the work at least 20 times in one day. Send an officer to take pictures. We resistance don't dare, because they are outside loitering all the time. Extra loud motorcycles constantly coming and going. They get to foothill blv and we still can hear them. Please help us. We are desperate. Freedom is for all of us, not just for few people. Please pass this restriction so we can get our street back. Thank you

**Comments for Public Posting:** This is a change that needs to occur. One of the RVS has been there over 6 months. the other has been there for close to a month. They block traffic and create a safety hazard for drivers turning both right and left. Sherman grove is a very busy side street and most neighbors are simply trying to avoid driving through there because of how hazardous it is. There is a foul stench of sewage around the RVS which implies they are either dumping their waste in the gutter, or failing to properly dispose of it, which is a public safety hazard. They are covering the sidewalks with trash with a complete disregard for neighbors around them. In addition to this, the folks living in these RVS are not the only people hanging out there. There are groups of people coming and going at all times of the day and night. This is a safety hazard, a health hazard, and creates an overall unsafe atmosphere for a neighborhood with elderly, and children. I am all for trying to help people who are down and out, and tryin to give folks options, but it appears this is a situation that has gone beyond find a temporary place to get on your feet, to abusing the system and all the neighbors around them. This needs to be dealt with as soon as possible. Thank you for your time and consideration.
