**Comments for Public Posting:** I am a resident of Wilmington which is home to the largest concentration of oil wells in the city of Los Angeles. I have lived here most of my life and have seen how living close in proximity to these wells have impacted my family's, friends', and neighbors' health as well as mine. I know Wilmington is not the only neighborhood that is impacted by these oil wells. From South LA to Wilmington to Porter Ranch, all these communities are greatly impacted by the oil and gas industry and we need bold policies to protect public health and the environment. Our communities have been waiting for a long time for oil wells to be phased out in the city of LA so I am asking the committee to waive the oil phase-out motion out of the Arts, Parks, Health, Education, and Neighborhoods committee that would not in itself phase out oil extraction, but set in motion a process to do so. We look forward to working with members of this committee to make sure this motion comes to the full Council as soon as possible. We urge members of this Committee to do what you can to waive the motion for an oil phase-out out of this committee and allow it to move forward through city council.

**Comments for Public Posting:** Councilmember Lee, I appreciate your vote in support of the motion at the PLUM Committee, I urgently ask that you put the motion to a vote. The health and safety of my community depends on this oil phase out. As well as the planet due to the effects of climate change. Thank you Councilmember Lee for your vote in support of the oil phase-out motion at the PLUM Committee, I please urge you to waive the motion for an oil phase-out from this committee as soon as possible.
