Comments for Public Posting: As a constituent of CD13 I find this resolution horrifying. All of these sites are in my neighborhood and I have never felt unsafe or at risk by the folks living in these places where they have been able to find shelter and community. I have found the residents of these areas to be kind and friendly. It is so saddening to see that when people in my community need housing and resources, what they are met with is force and cruelty. There are actual proven solutions that work and serve our most vulnerable neighbors. What we should be focusing on and sending funding and resources toward are those. The way that Mitch O'Farrell pretends to have the best interest of all constituents in mind is soul sucking and a complete falsity. Don't be fooled by his dehumanizing lies and enforcement led approaches. He has continually shown over the time he has been in office that he wants folks out of sight, but does not care what that means for the real people that applies to or where they go. Shame on him and I absolute cannot wait to use everything in my power to get him out of office when he is on the ballot next.
