**Comments for Public Posting:** I live at the 101 overpass and Bronson, and despite what the Hollywood United Neighborhood Council would say, which I resigned from in disgust, the encampments nearby are neither a hotbed of crime nor a threat to my safety. I have done outreach several times to the residents of the area and they want services and regular trash pickup, not to be offered a winter shelter cot for a few months. These people are my neighbors and putting up signs with a half-hearted offer of housing is not a viable solution, especially when Hollywood LAPD doesn't even have a strategy for enforcement. I urge you to withdraw this motion until more specifics on the housing to be offered and the proposed enforcement strategy are made clear.
