Summary: The Hermon Neighborhood Council supports this Motion (21-0979), which seeks to avoid a lapse in the service of 14 automated public toilets and calls for the City to explore options for funding additional public restroom facilities throughout Los Angeles. Currently, there are an estimated 48,000 people in Los Angeles experiencing unsheltered homelessness. The current offering of public restrooms is woefully inadequate to meet this need. Everyone deserves a dignified way to use the bathroom. Denying people this basic right is inhumane. It's also unsanitary and detrimental to public health. Additionally, the lack of public restrooms places the burden on small businesses to open their own restrooms to the public. We commend the City Council for passing this Motion, and encourage it to follow through on creating more public restrooms. The status quo regarding bathroom access in Los Angeles is unacceptable.
