The Honorable City Council  
of the City of Los Angeles  
Room 395, City Hall  
200 North Spring Street  
Los Angeles, California 90012

Council File No. 21-1112

Honorable Members:

This Office has prepared and now transmits for your consideration the enclosed draft ordinance, approved as to form and legality. This draft ordinance provides for the approval the Service Agreements for Firm Point-to-Point Transmission Service, DWP Nos. BP20-025, BP20-026, BP20-027, BP20-028, and BP20-029, by and between the City of Los Angeles, acting by and through the Department of Water and Power (LADWP), and Powerex Corporation, a corporation organized and existing under the laws of the Province of British Columbia, doing business in California as Powerex Energy Corporation (Powerex) (Agreements).

### Background

LADWP owns and operates its transmission system, dispatches its generation resources, and makes long-term power supply arrangements to meet its native load service obligations. To the extent there is transmission capacity available in excess of native load needs, the amount of available capacity may be made available to eligible transmission customers through LADWP's Open Access Transmission Tariff (OATT). The current OATT was most recently updated in July 2017, by the Los Angeles City Council in accordance with Ordinance No. 183143.

Pursuant to the OATT, Powerex is requesting a total of 496 Megawatts (MWs) of firm point-to-point transmission service in the following individual agreements, with points of receipts (PORs) and points of deliveries (PODs) as follows: (1) DWP No. BP20-25, 300 MWs from the Nevada-Oregon Border on the Pacific Intertie Direct Current Transmission Line (NOB) to the Palo Verde Nuclear Generating Station (Paloverde500); (2) DWP No. BP20-026, 50 MWs from NOB to Paloverde500; (3) DWP No. BP20-27, 6 MWs NOB to Mead 230kV Substation (Mead230); (4) DWP No. BP20-028, 18 MWs from NOB to Paloverde500; and (5) DWP No. BP20-029, 122 MWs from NOB to the Sylmar Switching Station. Each Agreement is for a two-year term, with its own automatic renewal option. The automatic renewal option is for an additional two-year term, unless either party notifies the other party of its intent to terminate.

### Charter Enabling Provisions

Charter Section 674(a)(1) provides that, subject to approval by ordinance, the Board of Water and Power Commissioners has the power to approve contracts with the United States, or any of its agencies, any state or any state agency, and any corporation, public or private, located inside or outside of the City or State of California for the construction, ownership, operation and maintenance of facilities for the generation, transformation and transmission of electric energy.

### CEQA Findings

In accordance with the California Environmental Quality Act (CEQA), it has been determined that the Agreements are exempt pursuant to CEQA Guidelines Section 15060(c)(2). General Exemptions apply in situations where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment. In accordance with this section, an activity is not subject to CEQA if it will not result in a direct or reasonably foreseeable indirect physical change in the environment. Therefore, the execution of the Agreements are not subject to CEQA.

Council Rule 38 Referral

Pursuant to Council Rule 38, the draft ordinance has been presented to the Board of Water and Power Commissioners.

If you have any questions regarding this matter, please contact Deputy City Attorney Syndi Driscoll at (213) 367-4363. She or another member of this Office will be available when you consider this matter to answer any questions you may have.

Sincerely,

MICHAEL N. FEUER, City Attorney
