Comments for Public Posting: I am a resident on the same block of the gas station. Everyone knows there is already a car wash in the middle of the block for decades. There is absolutely no need to grant all kinds of exceptions to allow building another car wash which will create major traffic, noise and air pollution! Last year, the Zoning Administrator heard the public outrage loud and clear, and rightfully denied the application. Why are we even dealing with this again?? It is a complete waste of time and taxpayers' hard earned money to entertain some gas station owner trying to generate even more profits at the expense of all nearby residents!
