**Comments for Public Posting:** I am a parent of a student from Vine Street Elementary and the encampment next to the campus is a public health hazard to my child and other students; I support the resolution in CD 13. We often come across glass bottles, needles and feces. There have also been times where the unhoused have played loud, explicit music at drop-off in the morning which is a disruption to students' educational experience.

**Comments for Public Posting:** We support Council Member O'Farrells' 17 Site Resolution, students traveled everyday to and from home and feel unsafed. Parents have been chased by individuals, there is feces, urine and other hazardous materials.

**Comments for Public Posting:** I am in support of Resolution CDE 13. As an employee at Vine El, I am deeply concerned by what our students are exposed to as they enter/exit our school campus. Unfortunately our students have to navigate through public streets that have been covered by feces and urine. Students have found discarded needles on our yard and driveway. Additionally, we have had students and their parents chased by the unhoused and made to feel unsafe simply when trying to go to school. Please consider the impact viewing this situation has on children.
