Comments for Public Posting: Wow, talk about corruption at City Hall. The Redistricting Commission, which you ALL appointed people to, draws a map and because Nury, Nithya, and Paul's gerrymandered districts are redrawn to be fair and no longer gerrymandered, you complain and try to redraw the lines yourself to further your self-dealing. This is so unethical one would think you were an impeached president! This is absolutely disgusting and Nury, Nithya, and Paul should be ashamed of themselves. To the rest of the council, don't give in to partisan gerrymandering: do what's right and stand up for the people of Los Angeles by trusting the Redistricting Commission that YOU appointed for this very purpose. It's so underhanded and should be criminal to try and change the rules of the game just because you don't like that your team couldn't run up the score.
