Comments for Public Posting: I enthusiastically support the creation of a permanent slow streets program in the City of Los Angeles! Slow Streets are one of the most popular programs the city has ever created. By making the program permanent, giving it a framework for expansion (including synching with our Mobility Plan), and properly funding it, we can make our neighborhood streets much safer and quieter. Please support this item!

Comments for Public Posting: I enthusiastically support the creation of a permanent slow streets program in the City of Los Angeles! I've driven by many now Slow Streets and can see more people, kids, and families hanging out in these streets. It is a GREAT program. Slow Streets are one of the most popular programs the city has ever created. By making the program permanent, giving it a framework for expansion (including synching with our Mobility Plan), and properly funding it, we can make our neighborhood streets much safer and quieter. Please support this item!

Comments for Public Posting: As a resident and homeowner in the Fairfax District, I enthusiastically support the creation of a permanent slow streets program in the City of Los Angeles! I have seen the impact of the Rosewood slow street personally. As a runner, it immediately made me safer as I try to spend time outdoors exercising. Cars regularly use Rosewood as a pass-through, ignoring stop signs and speed limits. The slow streets program made the street come alive with walkers, runners, and cyclists of all ages as we enjoyed the respite from reckless driving. As the temporary signs have fallen into disrepair, cars have again started to treat this small street as a pass-through, making us all less safe. Slow Streets are one of the most popular programs the city has ever created. By making the program permanent, giving it a framework for expansion (including synching with our Mobility Plan), and properly funding it, we can make our neighborhood streets much safer and quieter.
