Comments for Public Posting: In Los Angeles, speeding cars are out of control and a public safety threat to us all, including those that drive them. I am very happy that the city is moving towards implementation of AB-43, and looking to reduce speed limits wherever possible. Please support this council file and move as quickly as possible in lowering speed limits!

Comments for Public Posting: I am delighted that Los Angeles is moving towards implementation of AB-43. It is perfectly reasonable to have fast moving BIG WIDE streets in LA and slower streets that serve neighborhood centric traffic. Therefore I totally support Los Angeles reducing speed limits wherever possible. This will have the wonderful side effect that Ways and Google Maps will route less traffic away from our big boulevards onto small streets as many of these smaller streets will have speed limitations on them. This would be great as it helps return those streets to pedestrian, bicycle, and last mile traffic. Please support this council file and move as quickly as possible in lowering speed limits! Thank you!
