Regarding the Reese Davidson project in Venice, Agenda item: 21-0829, I am firmly against a project that will result in 140 units of housing, coming in at \$1 million for each unit. This project has been turned down by the Venice Neighborhood Council, and every public group that has encountered the presentation. The Venice Canals Association is also against it. This project ties together a ridiculous number of lots to make this "Monster on the Median", as we call it in Venice.

We don't want to displace the people who are going to lose their housing either, they have lived there for over 30 years. This project also brings in commercial, retail, a restaurant, art studio, and all sorts of goodies that are unrelated to the actual affordable housing that we so desperately need. The height is another problem, why are they getting a height variance west of Lincoln Boulevard in the coastal zone?

There isn't enough benefit for the cost of over \$140 million. This is a ridiculous project for the location. Please vote no!
