**Council File No:** 21-1223

**Comments for Public Posting:** In Los Angeles, speeding cars are out of control and a public safety threat to us all, including those that drive them. I am very happy that the city is moving towards implementation of AB-43, and looking to reduce speed limits wherever possible. Please support this council file and move as quickly as possible in lowering speed limits! I have two school-aged children that walk to school each day, and they cross busy streets, including Western Ave., that are plagued by speeding drivers. I recommend that L.A. follow Paris, France's example by lowering city speed limits to 19 MPH.

## Communication from Public

**Name:** Jennifer H.

**Date Submitted:** 11/01/2021 01:42 PM

**Council File No:** 21-1223

**Comments for Public Posting:** My name is Jennifer, I was born in LA and have lived here for 30+ years. As a driver of car (which is not my will but a result of being held hostage to the environment that has created necessity of cars for travel in this city/country), I myself acknowledge that in Los Angeles, speeding cars are a hazard to public safety and a threat to children, adults, and everyone, including those that drive them. As we take bold, transformative changes as a community to advocate for a safer, healthier, livable future that is less dependent on cars, I am very happy that the city is moving towards implementation of AB-43 to reduce speed limits wherever possible. Please support this council file and move as quickly as possible in lowering speed limits! Thank you for your consideration, Jennifer H. (Resident of LA)
