Comments for Public Posting: Dear PLUM Cmt: My name is Mahdi Manji and my comment is in regards to the Health Element Update. We are concerned that proposed targeted updates to the Health Element do not meet the City of LA's expectations for advancing environmental justice. City staff should conduct a more thorough EJ review and analysis of the Housing Element policies and programs with robust equitable community engagement that prioritizes EJ impacted communities. We request that the technical updates to the health element be referred to committee before going to a full council vote. Thank you, Mahdi Manji Inner City Law Center ACT-LA
