**Comments for Public Posting:** The map as voted on does not work for the San Fernando valley. It would make more sense to make the valley one district in district 3. We are not a community of interest with communities such as Bel Air or Venice. There is no reason for our population to be divided into districts 3 and 4. This is less advantageous for the advocacy for valley students. And having a board member have to go back and forth over the hill is not good from simply a practical standpoint. I would urge the city council to consider some of the alternative maps that keep the valley whole or the previous iteration of map 2 that kept the valley whole.
