Comments for Public Posting: SMMC has been an important eye and voice in our community for years. It would be much appreciated if they were listed as a trustee. I think it will do well for community involvement and oversight in an ever changing environment. Likewise I think they will continue to be important voices and advocates for our wildlife and open spaces. Thanks!

Comments for Public Posting: I support this city council item! Our wildlife needs an advocate involved in the review process for developments that could have detrimental effects on the surrounding ecosystem.

Comments for Public Posting: I support this City Council item! We need to do more to protect our precious wild lands and wildlife in these times of climate change. A large part of what makes our neighborhood and LA overall a great place to live is the open lands and wildlife that bring nature to our city!
