Comments for Public Posting: I support this City Council item! We need to do more to protect our precious wild lands and wildlife in these times of climate change. A large part of what makes our neighborhood and LA overall a great place to live is the open lands and wildlife that bring nature to our city!

Comments for Public Posting: I strongly support this legislation. The SMMC has been a strong and vital advocate for our wildlife and land. They must be added as a trustee agency to continue to be able to do even more in ensuring that Los Angeles is a place that has a thriving native plant and wildlife population, which only serves to increase the health of the city's people.
