**Comments for Public Posting:** Hello, I have lived in Reynier Village (the far west side CD-10) for 24 years. I feel very strongly that Reynier Village would be much better served by being redistricted to CD-5 for the following reasons: - The majority of our community (South Robertson Neighborhood Council and residents) are in CD-5 and moving to CD-5 would allow for better representation. - Robertson Blvd. is split between CD-5 and CD -10. Having two representatives for the same street and busy corridor makes it difficult to unify and improve the boulevard for it to thrive. As Robertson Blvd. is a major artery with significant traffic and commerce problems, any City improvements on Robertson Blvd. must be dealt with by two different council offices. This always creates barriers to getting anything done (if at all) in a timely and proper manner. Robertson Blvd. is the heart of the South Robertson community. Important issues concerning our neighborhood are generally always centered around Robertson Blvd. and being split between two council districts is inefficient and very problematic. - The South Robertson Neighborhood Council always has to confer with, and get special reports from two council offices. Any special events they want to hold on Robertson Blvd. or ask for improvements on Robertson Blvd. has to be sent to (and agreed by) two separate council offices. I believe the NC would be better served if all residents were under CD-5. - Redistricting criteria #5 states that: "Districts shall be drawn utilizing natural boundaries and streets and to encourage geographic compactness to the extent feasible". La Cienega Blvd. is the natural boundary for CD 5, as CD-5 already extends to La Cienega Blvd. (just north of Reynier Village) at 18th Street. If Reynier Village was redistricted by its natural boundary, La Cienega, (instead of Robertson Blvd.), its residents would be more unified geographically and for reasons stated above, much better served by CD-5. - The 2020 Census tract 2697.00, which includes Reynier Village and a portion of Castle Heights, is split between CD 10 and CD 5. Reynier Village is a small area at the far west end of CD-10 and already located immediately adjacent to CD-5, it would be a very minor adjustment to the borders, and follow a more natural line by having the cut off at La Cienega Blvd. Please change the boundary of CD-10 to La Cienega Blvd. Thank you.

**Comments for Public Posting:** Councilmembers: Especially Mr. Krekorian and Ms. Raman. PLEASE make a motion to move Studio City Neighborhood Council Boundaries back into CD2 to make this community whole, represented by only 1 Councilmember. The population increase can be solved by adding the 29,000 people in Studio City back to CD2 and move the 13,190 from CD2 to CD4. All new population totals are within the 10% devient. DO THE RIGHT THING. Make Studio City whole. Stop the Split. Your goal to keep Neighborhood Councils in 1 district and not split can be achieved for Studio City. Someone, please step up to make this motion. Thank you Patty Kirby patty.a.kirby@gmail.com 4434 Carpenter Ave. Studio City, 91607

**Comments for Public Posting:** Please, we beg of you, do not split Studio City into two different districts. Even more important, please do make Nithya Raman our representative! She plans to dramatically increase population density without considering the negative consequences. She doesn't understand that our local roads were not designed to handle such a huge increase in vehicle numbers. She doesn't understand that we don't have enough schools to accommodate the large increase we will have in numbers of students. She doesn't understand that we are already being deluged with a huge increase in both noise and air pollution from the jet superhighway over our neighborhood, and more people = more pollution. Please do what you can to find us a representative who actually cares about quality of life. Thank you!
