Council File No: 21-4118-S18

Comments for Public Posting: On behalf of Venice Community Housing, I want to express our strong opposition to the effort to make any public spaces illegal for unhoused residents, let alone the number of locations in the current motions before Council. The City has far too few housing resources of any kind, but particularly a shortage of permanent affordable and supportive housing. We urge you to advance housing solutions, not criminalization and displacement.
