Hi, Genevieve,

Thank you for reaching out to us on this matter. We will use your email below and add a note to the file that CD9 is instructing that zero consent/signature level for this request is acceptable. To further clarify, legally, there is no minimum required consent level. Procedurally, BOE typically recommends a majority consent level prior to moving a recommendation forward, but the consent level can be as high or as low as the Council office wants. We will wrap up the investigation and draft/issue the recommendation report shortly. Any questions or concerns, please let me know.

Regards,

Hui M. Huang, P.E.

The Bureau of Engineering (BOE) has a new online Customer Service Request (CSR) application to receive all inquiries and requests that do not already have an avenue for submission in other BOE web applications. These include requests for clearances related to City Planning or LADBS building permits.

The CSR application, and all other BOE applications, are accessible through our online portal, which can be found at <http://engpermits.lacity.org/>.

The normal response time for CSR requests is one to three days, with a maximum of about a week during unusual periods. Requests are taken in the order received and are monitored closely to ensure that all are responded to. You will be notified by email when there is a response and can log in any time to check the status. In order to serve you better, requests and questions are no longer accepted via phone or email.

Good afternoon Mr. Moore,

Thank you again for taking the time to discuss this matter. As mentioned, our office is trying to temporarily close this alley due to safety issues. We fear that collecting signatures will only delay this process that is so time sensitive. Your assistance is greatly appreciated.

Thank you
