**Comments for Public Posting:** Save Taix! The Cultural Heritage Commission preservation process has been hijacked to allow the Taix Building to be demolished to save a “legacy business”. The owner of Taix cashed out and has moved to Utah. He is allowing Taix to deteriorate. It is obvious that there will be no “new Taix”. In my 50 years of Taix patronage I have never before witnessed the degradation of Taix that is occurring now. Broken windows, outside graffiti and trash. The bar inside smells badly of obviously not being cleaned. Terribly understaffed for the very brisk business. The solo bartender not being able to keep up the the crowd. The food quality has gone down. Still the restaurant is packed. Further disputing the owner’s claim of not making a profit. Echo Park’s charm is being stolen by greedy out of state developers who own Mitch O’Ferrell. Save Taix. Allow a plan that includes part of the original building as was the original development plan!!
