**Comments for Public Posting:** Please support Alternative 1 • Don't destroy 23 acres of native habitat, including 227 City-protected trees • The full project is counter to City priorities, including the Biodiversity Report and the LA Sustainability Plan • The LA Zoo will still benefit from zoo animal care improvements and many visitor amenities if Alternative 1 is implemented

**Comments for Public Posting:** Preserving local native species while enhancing captive animal welfare is paramount. Minimize theme park activities at the Zoo, that detracts from the area and the facility.

**Comments for Public Posting:** When the Zoo expansion has been discussed by representatives from this entity, it always seems to be a conversation of a Parkland existing around the L.A. Zoo. The reality however, is far different. The L.A. Zoo exists within Griffith Park borders, so it's my feeling the Zoo and representatives should be cognizant of this reality, and any expansion should always take into consideration that the Zoo occupies ONLY a small portion of Griffith Park, not the other way around.

**Comments for Public Posting:** Please do not expand the LA Zoo into 20 acres of woodland habitat. I am an LA resident living near Griffith Park and I have a deep respect and appreciation for the areas of wilderness and nature preserved nearby. The expansion would involve destroying plant life, animal life, and all to support an institution that is already exploitative. Thank you for considering.
