Comments for Public Posting: To whom it may concern, My name is Raye Vega and as a resident of LA County and local to the Griffith Park are I would like to ask to reconsider the LA Zoo expansion. As a frequent visitor to Griffith Park I oppose the planning of a theme park that will destroy over 200 native trees just to serve as an attraction for the olympics. In this matter, I support Alternative 1, which will not destroy and preserve the 20 acres of natural flora and fauna. Moreover, I want to ask the Recreation Committee to stop blocking other committee's business such as the Environmental Impact Report that no longer is part of the agenda. It is neither helpful or progressive towards the preservation of the natural space that is Griffith Park. Best, Ray Vega Espino

Comments for Public Posting: Please protect our park. The Los Angeles Zoo puts wildlife in captivity, exactly the antithesis of what the nation's largest park should be, and what we should be teaching our children. It's a disconnect with nature under the strange guise of "conservation." Zoos are a civic embarrassment and don't deserve to be allocated funds. This is especially the case here, and it would be unethical to support expansion of the L.A. Zoo which has a horrible legacy. Please google "zoochosis."
