Comments for Public Posting: I oppose the expansion of the LA Zoo as it will disturb and destroy the homes of many of the wildlife that life in Griffith Park. Birds, squirrels, coyotes, and mountain lions will have have 23 acres less to roam and nest in for - a climbing wall and vineyard to draw visitors from the Olympics? No. The zoo is beautiful and so is Griffith Park. Please keep the land wild. Griffith Park is a sanctuary in the middle of the concrete jungles that surround it. It doesn't need any more development. Thank you!
