Comments for Public Posting: 41.18 is inhumane. Criminalizing those experiencing homelessness is counterproductive and a waste of taxpayer dollars. Enforcing 41.18 amid the omicron surge- more transmissible than almost any virus in history- goes against public health guidelines. Stop putting politics before public health. Suspend the roll out of LAMC 41.18. Please put public health before politics to help us end this pandemic. Please protect our most vulnerable neighbors. Suspend LAMC 41.18 during the omnicron surge.

Comments for Public Posting: The City of Los Angeles is not facing conditions that will exceed the normally constituted government's capacity to manage its affairs. The City's "lockdowns", instituting healthcare apartheid, forced masking, illegal coercion to take part in an mRNA drug experiment - has not worked! The "virus" has simply done what they all do - they mutate, and become more contagious and less lethal. The CAO, Matt Szabo, has not been able to list the "temporary" orders, rules, provisions, and policies that have sprung up from this permanent emergency state. The costs to this city that the Nury Martinez council presidency has incurred can never be properly tabulated - among them the filling in of the skate park in Venice Beach, taping off of outdoor swings, closing outdoor public pools, and terrifying the residents of this city. The lockdowns and tyrannical abuse of this Local Emergency has become one of the great civic disasters in our city's history. End this phoney "emergency".

Comments for Public Posting: As part of the new state of emergency in LA, it's imperative that the city consider the health of our unhoused neighbors. COVID infections are rising in homeless shelters, a problem exacerbated by both a lack of resources and the displacement of unhoused peoples under LAMC 41.18. In tackling Omicron infections, city council must devote more resources to aiding our unhoused neighbors while also ceasing the rollout of LAMC 41.18.

Comments for Public Posting: NoHo Home Alliance is asking that all 41.18 encampment sweeps and CARE + sweeps be halted until further notice during this severe Covid surge. Many shelter options are in quarantine which severely limits the ability of the unhoused to be placed in safe housing. We know when sweeps occur the unhoused are dispersed into the community which only increases the spread of Covid. Please halt all sweeps. NoHo Home Alliance is a community based organization committed to housing and healthy community for all. NHHA provides drop in access services connecting the unhoused to basic needs and resources to connect to housing. We also provide outreach to the unhoused in the southeast valley offering referrals to services and entry into CES.
