**Comments for Public Posting:** I am baffled that this is even being considered. It is a shameful placation to Uber and Lyft and removes the only remaining place where people can receive/maintain consistent pricing based on mileage, and not location and time of day. The regulation of cabs has prevented price gouging and higher fees by location and should NOT be amended. In fact, the City should establish ordinances that require all rideshare services such as Uber and Lyft to comply with regulations set for Cab Companies. I would rather pay a slightly higher fee that ensures fair wages and FAIR PRICING of trips than play Russian roulette with rideshare. This is shameful and only indicates that the City of Los Angeles has lost its way in protecting its citizens. People over profits. DO BETTER
