Comments for Public Posting: The murder of anyone is a tragedy. However, when you hand tie the police in the inner city, you basically are telling the communities of color that you don't care to have their areas policed. Why aren't you calling on the Social Workers or Ambassadors to give you and equity report? If you were even the slightest bit interested in figuring this out, then you would not support Gascon who hasn't met a criminal he would prosecute. Why don't you also list the stats that say who is doing all the crimes against Black women/girls? You can't have it both ways.
