

HOMELESSNESS AND POVERTY

MOTION

The Bureau of Sanitation Livability Services Division is currently expanding its operations across the city. The Livability Services Division provides CARE and CARE+ cleanups and works closely with various service providers to ensure the public right of way is kept clean and safe.

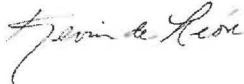

In the FY21-22 budget, Council allocated funding for 30 CARE/CARE+ Teams. However, despite funding for staffing, the Bureau of Sanitation does not have the space needed to store equipment and house staff. In order for the Bureau to fully deploy their staff, additional yard space is needed for their crews and equipment.

I THEREFORE MOVE that the Bureau of Sanitation identify the best geographic locations throughout the city that will maximize the efficient deployment of CARE and CARE+ resources.

I FURTHER MOVE that the Department of General Services, in coordination with the Bureau of Sanitation and City Administrative Officer, be instructed to identify additional sites including immediately leasing or purchasing vacant commercial property suitable for Bureau of Sanitation Livability Services Division operations.

I FURTHER MOVE that the aforementioned departments report back in 30 days with a funding strategy in order to quickly acquire these sites for the Livability Services Division.
