Comments for Public Posting: I am happy to see LA City taking initiative on the critical issue of plastic, which is harming communities, ecosystems, and wildlife. I encourage the LA City Council to finalize LA Sanitation's the recommendations and draft a comprehensive ordinance that addresses plastic reduction. Specifically, I am in support of an EPS foodware ban, lifting all exemptions on the plastic bag ban, implementing the city department zero waste plan, and comprehensive single-use plastic reduction strategies. Additionally, I urge the LA City Council to consider mandating reusable foodware for on-site dining and a fee on disposables. Thank you for your leadership.

Comments for Public Posting: I am writing to ask the L.A. City Council to approve L.A. Sanitation's recommendations and pass a comprehensive plastic reduction ordinance this year. L.A. needs to take action on the critical issue of plastic, which is harming communities, ecosystems, and wildlife, and is also worsening the climate emergency. I support the recommended EPS foodware ban, lifting all exemptions on the plastic bag ban, implementing the city department zero waste plan, and comprehensive single-use plastic reduction strategies. I also urge the City Council to consider mandating reusable foodware for on-site dining and imposing a fee on disposables. We desperately need your leadership on this critical climate, environmental, and health issue!
