Public Works Committee  
Attention: Michael Espinosa, Legislative Assistant

RE: TRANSMITTAL FOR COUNCIL FILE NO. 21-1397

On March 3, 2022, the Energy, Climate Change, Environmental Justice, and River (ECCEJR) Committee considered Motion (Rodriguez - De Leon) relative to climate change-related heat impacts on transportation-related infrastructure and technology, future feasibility and action plan on undergrounding utilities; and the feasibility of establishing an additional source of City directed funds to address infrastructure inequity, including a potential new funding source.

After providing an opportunity for public comment, the ECCEJR Committee approved the recommendations as amended to add the instruction for the Department of Transportation, Bureau of Engineering, Bureau of Street Services, Los Angeles Department of Water and Power, and all relevant departments to consult with the Climate Change Emergency Mobilization Office. Pursuant to the multiple referral of this matter, the subject Council File is hereby transmitted back to the Public Works Committee.

Sincerely,

Eric Villanueva, Legislative Assistant  
Energy, Climate Change, Environmental Justice, and River Committee
