**Comments for Public Posting:** You all are losing our confidence by the day and making a global mockery of our state. It's time to end the state of emergency.

**Comments for Public Posting:** It is time to end the 2 year long state of emergency, end all vaccine mandates and give all police, firefighters, nurses, doctors and educators their jobs back! Mandating for a vaccine from 2020, for a variant that isn't even in circulation anymore and is now worthless with the current variants is ridiculous. You can still catch and transmit Covid whether vaccinated or not so there's no longer a scientific need for emergencies or mandates. Omicron is the best variant we have to reach herd immunity and give all employees their jobs back and kids their educations back. Thank you kindly.

**Comments for Public Posting:** As a City employee on unpaid leave due to the mandate , I urge for LA City Council Members to repeal the mandate and allow for City workers who want to work to return to work. Please find it in your hearts to have compassion, mercy and acceptance of other people's private medical decisions. I pray every day for the families that are being affected due to the mandate, but I especially pray for the leadership of the people in elected office who have it in their ability to make the difference.

**Comments for Public Posting:** Please please do not continue to mandate covid 19 vaccines. It's over. Everyone has been through enough. Especially the hard working healthcare workers.

**Comments for Public Posting:** It's time to end the mandate and get our hard working LA City employees back to work. Many of these individuals have already had covid and have natural immunity. It is not right to take away their livelihood and jobs for not complying with mandate. They should be allowed to make personal health decision. Each person has opportunity to make own health decisions based on risk assessment. People have vaccines masks or whatever they choose to protect themselves. Unvaccinated LA city employees are not a risk to the public. Especially with omicron we Learned vaccinated and unvaccinated can still get and spread covid so firing those without vaccine or forcing them to keep job does not make sense and is wrong. Please end the mandate

**Comments for Public Posting:** City of Los Angeles must stop the unconstitutional mandates.  
Enough is enough.

**Comments for Public Posting:** It is long past time to end the Covid 19 vaccine mandate. We live in a free country where we have the right to make the best decisions and choices for ourselves. If you truly follow science, you will put an end to a vaccine mandate!

**Comments for Public Posting:** I critically urge the city council to revoke the vaccine mandate for all city workers. It has now been made very clear, not just within this city, but nationwide, and emphasized by the CDC, that there is nothing about this unapproved shot that makes anyone less of an immediate danger to society. People have already lost careers over this and it needs to end now before more families are torn apart, and years of hard work are thrown out the window. Please do what you all know is the right thing.
