Comments for Public Posting: To mandate a Vaccine is a violation of my constitutional rights and a right to choose what is best for my own body. Please remove the vaccine mandates from all of city and county and medical field employees.

Comments for Public Posting: Please end Los Angeles City's vaccine mandate for its employees as it should be a matter of personal choice. The city should respect employee's civil liberties and allow them to make their own personal medical decisions. Thank you

Comments for Public Posting: Please stop mandating vaccines. You can not dictate what goes into someone's body. This vaccine does not prevent transmission nor does it help infections, so if an individual based on their own health and/or personal belief does not wish to get the vaccine then it is up to them. Not you who are not healthcare professionals. This is just a government overreach. Do the right thing for your own human kind. We are not different from each other and once that is realized that we will be in a better place in our society.

Comments for Public Posting: Please stop mandates. Where there is risk there must be choice. Every day new info comes out showing the shots do not work and can have horrific, permanent, life-altering side effects. My Uncle just had to have a blood clot removed from his brain after his booster. It started w headaches. His Dr told him they are seeing a lot of this and its only a matter of a very short time bf getting boosters is halted. Israel is ahead of us and showing very concerning data. Get many insurance company is showing 1 in ever 24 people needed medical attn after the shots. They are no longer paying death benefits for people who die of related issues like strokes or heart attacks after shots citing they are experimental and people willingly volunteered for the experiment. A judge just ruled in the insurance companies favor. I and my family are fine except my Uncle. Still that is one in a small family of 16 and one too many.

Comments for Public Posting: It is urgent that these mandates need to be brought to an end. There is no scientific evidence of there efficacy but there is plenty of evidence of the harm that it has done to our community. As leaders, you need to start empowering citizens to stop living in fear and to start living life again to its fullest.

Comments for Public Posting: STOP THE COVID VACCINE MANDATE FOR HEALTHCARE WORKERS NOW!! This mandate is unjust and illogical and threatens the livelihood of many residents. The vaccines have demonstrated to not work. Vaccinated workers continue to get infected, even with the booster vaccine.

Comments for Public Posting: We the people have never been given accurate information regarding COVID-19. Dr Fauci along with his team have been the voice of the pandemic and despite of his many years of serving several administrations and is the highest paid did not fulfill his obligation to our country. I can't believe the city of Los Angeles does not have physicians with the common sense to question this!

Comments for Public Posting: My comment addresses the Covid-19 mandate. Why is this emergency mandate still being enforced? The so called science the Los Angeles city refers to is not based on true science but pure propaganda. I will make this short, when all is said and done with this nonsense, who is going to be held accountable? Believe me this is going to blow up in the Democrats faces, just a matter of time. As a retired Police officer for the city who investigated and solved numerous crimes, this is going to be very bad for the city of Los Angeles (major lawsuits.) There is no need for this mandate, this is based on the true science and logic from honest doctors and scientists, please look it up. It's not hard to do. However, the taxpayers will have to dish out the monies like always. People are going to want justice and demand that heads roll. City council members, Los Angeles County POS members, doctors....etc. We will demand jail sentences for them who perpetrated this Covid mandate lie and who made money by this. The vaccinated are the ones spreading covid, this is based on TRUE science/evidence. Also, CDC director just said she got her information from CNN News. WOW!!! Okay remember when all said and done, what are you going to say then? We will visit the city chamber (200 plus of us) soon to hear your explanation.

Comments for Public Posting: Please stop and end the mandates. The city nor county are following the actual science. The vaccines aren't effective as previously stated. The masks aren't effective as previously stated. The CDC's latest statements were that they had "hoped" the vaccines would work. That is not and should not be the basis for policy, ordinances etc.

Communication from Public

Name: WE THE PEOPLE

Date Submitted: 03/09/2022 10:30 AM

Council File No: 21-0921

Comments for Public Posting: No more. The people have spoken. Who do you think you are? You're not above God's human creation. So what if the USA is now a corporation and you're trying to enforce corporate bylaws and commercial laws on the people. "WE THE PEOPLE," invoke our power of the Constitution of the united States of America The Republic. "He who creates, controls." Who do you think created man? Who do you think created land, air and water? Who do you think created the states of the Republic? Who do you think created the local governments? Who do you think created the federal government? What does limited power mean to you? Was the Constitution written to protect God given unalienable rights or was it to limit the power of an overreaching government? The People do not beg for your privileges. Our rights to life, liberty and the pursuit of happiness is all you need to know. You think a corrupt judicial system will protect you? You think a monopolized BAR association will protect you? We are living men and women here by special appearance demanding your jurisdictional power?? What branch of government are you claiming to use? You think mandates and policies in a city municipality outweighs the power of "WE THE PEOPLE???" You're funny. I demand answers. Who's in charge around here?? It's not you that's for sure. When the federal government fails us who is to step in? If the state government fails us who is to step in? If the local government fails us who steps in? If the politicians and policies fail us who steps in to correct the limited power that WE gave you?? WE THE PEOPLE STEP IN TO SAY NO MORE. What is EMOLUMENT VIOLATION??? Figure it out fast. You think fear is going to work? What happens when a man has nothing left to lose? Fear doesn't exist anymore. Survival kicks in. Motivation kicks in. Hope kicks in. Knowledge kicks in. Strength kicks in. Power kicks in. Light kicks in. Love kicks in. And by the power of Jesus Christ and God himself a man becomes divine and indestructible. Good luck beating me. Good luck beating WE THE PEOPLE.

Comments for Public Posting: Mandates infringe upon the individual rights of each citizen of not only California but this nation. Infringement upon those rights are ILLEGAL. Government and city official overreach has become too common and must be lassoed in. No to mandates and yes to public safety support.

Comments for Public Posting: Oppose SB 871 Stop the government over reach on our protected liberties . End these public health intrusions on healthy children and the family. I whole heartedly oppose any government powers over a persons sincerely held personal beliefs upheld in Title VII of the Civil Rights Act of 1964. These rights given by our creator GOD and not by evil tyrannical government.

Comments for Public Posting: The city of Los Angeles is hanging on by a thread as it is, do we really need to cripple it further? The people you are mandating this vaccine for are people who went without protection at the beginning of this pandemic for over a year, they lived it, they saw it and if they felt that what they've experienced didn't warrant taking a rushed vaccine, from companies that wanted to keep the data hidden for the next 55 YEARS then that is their choice. There are 9 PAGES of side effects in the data Pfizer had to be forced to release, not to mention all of the redacted pages. The government does not have the right to make that decision for them, you don't have the right to take away what they have spent years working for because they don't want an experimental vaccine. You cannot mandate something out of greed, do you honestly not have enough? Californians are losing faith in this city, now is the time to prove you care about the actual citizens more than the pharmaceutical companies lining your pockets.
