As recommended in the accompanying report of the City Engineer, which this Board has adopted, the Board of Public Works recommends that the City Council:

Fiscal Impact: The Project has a construction budget, including contingency, of approximately \$46,000,000. Funding for the design and environmental documentation was provided by Los Angeles County funds, as well as City funds. Funding for the construction will be provided by the Los Angeles County Metropolitan Transportation Authority Measure M funds, Active Transportation Cycle 4 funds, as well as other sources to be identified. The General Fund is supporting the City's project management staff costs.
