FOREWORD

CITY OF LOS ANGELES BUDGET SYSTEM

The City's budget system is the means of allocating resources to meet our citizens' need for public services. The budget system used by the City has evolved over the years to incorporate innovations in budgeting theory.

The most basic of the budget systems is termed **line-item**, or object of expenditure, wherein planned expenditures are categorized according to the goods or services to be secured. The budget document states appropriations in line-item terms, such as salary and equipment accounts, and provides the basis for financial control during the fiscal year. This basic system is essential, but lacks features to measure service levels.

The City modified its budget concept to place primary emphasis on services and their attainment by incorporating selected concepts of **program budgeting**. Programs are defined within the framework of City departments, such as parking services provided by the Department of General Services or traffic control provided by the Police Department, rather than interdepartmentally. This approach permits a higher degree of accountability for the attainment of services.

The City additionally uses a **functional budget** approach wherein programs are grouped into functions and sub-functions (also referred to as activity groups and categories), to enable interdepartmental analysis at this higher level. This level of differentiation is determined on the basis of the services provided and not on the basis of organizational or geographic units. Currently, all of the City's programs fall within one of six functions and 49 sub-functions, as shown in Section 6 of the Proposed Budget.

The City's **performance budget** element is based in departmental work programs. Performance budgets use statements of mission, program goals, and/or objectives to explain why the money is being spent. It is a way to allocate resources to achieve specific objectives based on program goals and measured results. Performance budgeting permits qualitative and quantitative performance measurements of services provided for a given amount of resources. As part of the City's performance budgeting system, metrics associated with each program are included in the budget documents and used to evaluate progress towards achieving priority outcomes and to compare effectiveness between programs.

The City's current budget system establishes the prior year as the baseline for decisions to add new services or to expand, supplement, or revise resources for existing services in the program year (also known as incremental budgeting). This strategy streamlines the decision making process by focusing on changes. This approach, however, assumes that the current baseline-services are of higher priority than new or expanded services that may be proposed. Moreover, it assumes that the current baseline resources are appropriate to accomplish the service objectives. Therefore, the City incorporates certain elements of **zero-base budgeting** to allow for an examination of the historical baseline budget and staffing of existing programs that are proposed to be enhanced.

Thus, the City's budget system may be described as a **modified program budget**, which incorporates the elements of line-item, program, functional, performance, and zero-base budgeting.

The City's concept of the budget system includes the traditional orientation of budgeting as a plan of financial operations, providing an estimate of proposed expenditures for a given period of time or purpose, and the proposed means of financing them. Therefore, budgeting consists of a management program, a decision-making program, and a financial program. The City's budgetary system is a constant and continuing flow of planning, decision-making, accomplishment, and control. The development of the annual budget document is only one part of the system for each fiscal year and, despite its intensity of focus, should not detract from the continuing aspects of the overall system.

THE BLUE BOOK

I. OVERVIEW

This supporting document – the “Blue Book”- describes the Mayor’s proposed changes to the adopted budget for the ensuing fiscal year. The Blue Book supplements the budget document, which presents financial information by line item. The Blue Book describes budgetary changes by program within each department. These changes are further subdivided into major categories.

The Blue Book is comprised of three sections as follows:

- Section 1 presents changes in appropriations for budgets controlled by the Mayor and Council, such as the Police, Fire, and Transportation departments. Changes are shown for each program and each department. In addition, this section summarizes contractual services and authorized position counts for each department.
- Section 2 presents changes in appropriations for budgets of departments having control of their own funds and depending upon the General Fund for some of their operating funds, such as the Library and Recreation and Parks departments.
- Section 3 presents changes in appropriations for selected non-departmental funds as well as provides supplemental schedules that summarize the funding provided for items such as alteration and improvement projects, street improvements, and homeless-related expenditures.

II. THE PRESENTATION OF DEPARTMENT BUDGETS

SUMMARY OF FUNDING AND STAFFING

The first page of each department’s material summarizes its historical level of funding and staffing, significant financial and position changes from the current year’s adopted budget to the ensuing year’s proposed budget, distribution of funding by program, and main budget items.

RECAPITULATION OF CHANGES BY ACCOUNT AND FUNDING SOURCE

This page provides a summary of changes in appropriation by budgetary account and funding source. A detailed explanation of the changes appears on the following pages.

CHANGES APPLICABLE TO VARIOUS PROGRAMS

Budgetary programs are subsets of department budgets within which the department provides services. Often budgetary programs align with the department’s organizational chart, with department sections or divisions summarized within programs. Some smaller departments may only have one budgetary program, while larger departments can have ten or more programs. The Changes Applicable to Various Programs section shows budgetary changes that are department-wide or affect multiple programs.

CHANGES APPLICABLE TO SINGLE PROGRAMS

Subsequent to the Changes Applicable to Various Programs section are individual single program pages. At the top of the first page of each program is the program title, the Priority Outcome with which the program best aligns, and a summary description of the services provided within the program. Performance metrics are also provided for most department programs. While not exhaustive, these metrics are representative indicators of progress towards Priority Outcomes. Additional information on the City’s performance metrics can be found at <http://data.lacity.org>.

The first item for each single program is the Apportionment of Changes Applicable to Various Programs. This item reflects the portion of changes in funding and position authority that were made in the Changes Applicable to Various Programs section that are applicable to the single budgetary program.

CHANGES IN COSTS, POSITIONS, AND CHANGE CATEGORIES

Financial changes in departments are expressed in terms of direct and total costs. Changes in direct costs consist of changes in departmental appropriations for salaries, expense, equipment, and special accounts. Changes in total costs consist of the sum of direct costs plus estimated related costs for employee benefits such as retirement, health, and dental insurance. Additional costs related to departmental operations that are appropriated in other budgets such as in the Los Angeles City Employees' Retirement System for retirement and Human Resource Benefits for health, dental, and other insurance programs are reported as related costs in Exhibit G of the budget document.

Personnel changes are expressed in terms of the number of permanent, regular positions to be added or deleted from the adopted budget. Changes in temporary personnel (referred to as resolution authority positions) are not included in the permanent position total. All new positions are subject to allocation by the Board of Civil Service Commissioners.

OBLIGATORY CHANGES

These are changes that must be provided according to established policy such as interim salary adjustments and changes in funding to reflect the number of working days during the ensuing fiscal year. They also include changes mandated by Federal, State, or City law, as well as items approved by the Mayor and Council during the previous fiscal year after the budget was adopted.

DELETION OF ONE-TIME SERVICES

These changes are provided according to established policy that includes the deletion of funding for resolution authority positions and the deletion of all one-time funding provided in the previous year for expenses or equipment.

CONTINUATION OF SERVICES

These funding changes are needed to continue the existing level of departmental services. These changes may include continuing previously authorized resolution authority positions, making previously authorized resolution authority positions into regular authorities, or providing funding for items that were approved in the current fiscal year after the budget was adopted. The continuation of existing services may require additional funding resources due to salary or expense increases.

INCREASED SERVICES

These are funding increases to augment existing services levels within programs or functions. These changes include workload or service level increases where the Mayor has directed additional resources to augment the service based on budget priorities.

REDUCED SERVICES

These changes reflect a reduction in service level within programs or functions due to funding priorities or the need to transfer existing funding to a different existing or new service. Changes include workload changes, service level changes, or changes to the type of service provided.

EFFICIENCIES TO SERVICES

These changes are a result of efficiency or productivity improvements that impact service levels. Some efficiency changes may appear to increase funding for a particular service; however, efficiencies may be gained by departments providing increased services to the public or by allowing the public to have better access to City departments and information.

NEW SERVICES

These are changes where additional resources and funding have been provided within departments' budgets for them to provide a new service to the public.

RESTORATION OF SERVICES

These changes reflect the addition of funding or positions for services that were reduced in a prior year. This category typically includes items that were previously reduced on a one-time basis in the prior year, but can also include services that were decreased during economic downturns that are being restored to former service levels.

TRANSFER OF SERVICES

These changes reflect the transfer of funding and/or positions between departments that will result in better alignment of City services provided by departments. Usually, these transfers do not increase or decrease the overall funding contained in the budget.

OTHER CHANGES OR ADJUSTMENTS

This category reflects changes that either fit into multiple categories or do not fit neatly in any of the categories above. These changes are often technical in nature and may include position changes where funding is not increased or decreased.

SUPPLEMENTAL SCHEDULES

A Detail of Contractual Services Account, listed by budgetary program, is provided for all departments. This document provides a summary of the contracts into which a department is authorized to enter with the funding provided within the Contractual Services Account.

DETAIL OF POSITIONS AND SALARIES

Authority to employ personnel in positions that are listed for each department, office, or bureau is limited by the number of authorities provided, funds available for the payment of salaries, and by all applicable salary and personnel provisions of codes, ordinances, and resolutions as adopted.

Salary information under the column heading "2022-23 Salary Range and Annual Salary" shows the salary range number on the left and the values for the lowest and highest annual salary amount associated with that range on the right. The salary range number represents the hourly rate for the first salary step in the salary range (e.g., 1625 = \$16.25). If the salary range number is followed by a value in parentheses, such as 1625(2), the value in parentheses represents the starting step for a classification if the typical starting step is not the lowest step (step one). The annual salary amounts provided to the right of the salary range number, however, will display the lowest (step one) and highest annual salary amounts of the range regardless of whether the typical starting step is higher than step one. The number of steps in a salary range as well as the differential between salary steps varies by classification. All annual salary amounts are truncated to the dollar.

Flat-rated or hourly rate classes have a single salary amount shown. Police Officer and Firefighter salaries show the annual salary spread for the class. These salaries are structured into salary schedules that are different than the salary range structure of civilian employees.

All salary figures reflect projected 2022-23 salaries (effective July 3, 2022) to the extent available. Salary rates for some classifications are subject to change according to the prevailing wage pay schedule; for these classifications the Building Trades Council will submit basic wage information to the City Administrative Officer.

As-Needed Position authority is provided and controlled by appropriations in most instances and/or by number of positions in others. An individual department/bureau is provided with listings of authorized as-needed position classifications.

Departments routinely submit personnel authorization reports (Employment Level Report) for each of the 12 monthly periods to the City Administrative Officer to show the average level of employment and utilization of personnel that is contemplated with budgeted funds. New positions may only be financed for part of the year in accordance with a realistic recruiting and hiring program.

III. SELECTED BUDGETARY TERMS

The following budgetary terms appear in the Blue Book. To promote clarity for the reader, they are defined below:

EMPLOYEE COMPENSATION ADJUSTMENTS

During each budget year, the City may provide a cost of living adjustment for City employees. Funding for civilian and/or sworn employees is placed in individual departmental budgets.

SALARY STEP PLAN AND TURNOVER EFFECT

The City compensation system is composed of compensation ranges. Ranges have multiple steps or levels. Most ranges have either eleven or fifteen steps. Assuming satisfactory performance, incumbents in each range move from step to step over a period of time.

The Salary Step Plan and Turnover Effect is the estimated net effect of the salary step effect and the turnover effect for the budget year. The salary step effect reflects employees who stay with the City over the course of the budget year. Those employees may move from their existing salary step to a higher salary step. The timing and resulting cost of this movement varies for each position.

Simultaneously, employees who have been with the City for a period of time may vacate their position at a certain salary step (generally, the salary step is higher the longer the time of service in the position). Replacements for those employees often are hired at lower salary steps. The resulting cost difference is the turnover effect.

FULL FUNDING FOR PARTIALLY FINANCED POSITIONS

When new positions are approved, departments may only be provided partial year funding to allow sufficient time to hire qualified staff. Additionally, departments may have one-time salary reductions in a given fiscal year to reflect savings generated by positions filled in-lieu, held vacant for employees on long-term leave, and/or anticipated attrition. This budget item is used during the following budget cycle to provide departments full funding for those positions and salary accounts that were partially funded in the prior year.

DELETION OF ONE-TIME EXPENSE, EQUIPMENT, OR SPECIAL FUNDING

Each year, the adopted budget contains funding for one-time expenditures. Funding for these items is deleted from the following year's budget as a technical change. These technical changes are shown in order to allow the reader to follow all the changes made to the budget and better compare the Mayor's Proposed Budget with the current year adopted budget. New or continued one-time expense, equipment, or special items must be justified separately for inclusion in the proposed budget.

DELETION OF FUNDING FOR RESOLUTION AUTHORITIES

Each year, the adopted budget contains funding for resolution authority positions. Due to their temporary nature, funding for these items is deleted in the subsequent year's budget as a technical change. Continuation of funding and position authority for these positions is dependent upon available funding and continuing need in the next fiscal year. This technical change is shown to allow the reader to follow all the changes made to the budget and better compare the Mayor's Proposed Budget with the current year budget.

REALIGNMENTS

Routine changes are often required to move positions and/or funding between budget programs, accounts, or funds to align department expenditures with anticipated needs and available funding. These changes are typically referred to as Program Realignment (moving positions and funding between budgetary programs), Account Realignment (moving allocated funding between different accounts, such as Contractual Services or Salaries As-Needed), and Funding Realignment (moving allocated funding between funds, such as the General Fund or the Sidewalk Repair Fund). These items typically have no direct or related cost, as there is no change to the overall funding provided to the department.

MICLA

The Municipal Improvement Corporation of Los Angeles (MICLA) is a 501(c)4 non-profit financing corporation established by the City in 1984 to assist in the financing of capital projects and equipment. MICLA is directed by a five-member board whose members are appointed by the MICLA Board and confirmed by the City Council. The City Administrative Officer is the liaison between the MICLA Board and the City.

POSITION AUTHORITIES

Position authorities are categorized and granted depending on the need and length of time for the position. The various position categories are listed below:

- Regular authorities are considered long-term, permanent, and ongoing positions required by the City and are authorized by an ordinance adopted by the Council and Mayor.
- Resolution authorities are considered limited-term, temporary positions required by the City and are authorized by Council resolution. These are generally associated with projects of limited duration or funding.
- Substitute authorities are considered temporary authorities. They are often authorized to resolve a variety of temporary staffing problems. These positions are generally unfunded. This authority is not intended to allow for significant changes to the existing work program or budgetary authority.
- In-lieu authorities are considered temporary authorities. They exist to allow for limited management flexibility in the level of the employee hired. An in-lieu authority can only be authorized at a level equal to or lower than the level of the funded position. This authority is also not intended to allow for significant changes to the existing work program or budgetary authority.

PRIORITY OUTCOME

The Mayor has identified four Priority Outcomes that guide budgetary decision-making. The Priority Outcome with which each departmental budget program most closely aligns is listed in each program description. The four Priority Outcomes are as follows:

1. Make Los Angeles the best run big city in America
2. Promote good jobs for Angelenos all across Los Angeles
3. Create a more livable and sustainable city
4. Ensure our communities are the safest in the nation

Risk Management

Priority Outcome: Make Los Angeles the best run big city in America

As mandated by the Los Angeles Administrative Code, the CAO provides risk management services and assistance, including studies, reports, analyses, assessments, and recommendations with respect to risks and potential liabilities presented by the operation, practices, and conditions existing in City departments, including but not limited to administering funds to provide for losses, placement of insurance contracts, insurance and bonds compliance, and assisting in the management of claims/litigation presented against the City. Risk Management identifies and analyzes the City's loss exposure and develops risk control techniques to protect the City to the maximum extent feasible against loss or liability.

Criminal and Special Litigation

Priority Outcome: Ensure our communities are the safest in the nation

This program includes three divisions, Criminal Branch Operations, Safe Neighborhoods and Anti-Gangs, and Special Operations and Litigation, as well as the Community Justice Initiative. Through this Branch, the City Attorney's Office prosecutes misdemeanor offenses, including gang crimes, family violence, consumer fraud, and code enforcement; proactively addresses quality of life and safety issues in neighborhoods, including through the Neighborhood Prosecutor Program; comprehensively tackles gang crime in partnership with the Los Angeles Police Department through prevention, intervention, and suppression; and, in collaboration with regulatory and/or other prosecutorial agencies, addresses environmental protection and justice issues. A recent emphasis on restorative justice aims to work with non-violent offenders to prevent future involvement with the criminal justice system, including through the Neighborhood Justice Program.

Audits of City Departments and Programs

Priority Outcome: Make Los Angeles the best run big city in America

This program conducts risk-based audits in accordance with Government Auditing Standards to meet the Charter requirement for an established audit cycle to ensure that the performance, programs, and activities of every department are audited on a regular basis and that City resources and funds are adequately safeguarded. These audits provide an independent assessment of existing controls and determine if departments are operating efficiently and effectively and are producing the desired outcomes, as established by City leaders. They ensure that financial and operational activities are accurately reported and conform with applicable laws and regulations, and promote the effective use of City resources. Audits recommend improvements to operations that save taxpayer dollars and increase program outcomes, and hold department management accountable for effecting positive change.

Community Arts

Priority Outcome: Create a more livable and sustainable city

This program consists of a network of individuals and organizations anchored by City-owned cultural assets located in communities throughout Los Angeles that offer high-quality instruction in the arts; presents solo and group art exhibitions; creates outreach programs for underserved populations; develops special initiatives for young people; and supports numerous events during the year that celebrate the cultural diversity of the community. Services are provided through Department of Cultural Affairs-managed art centers and theaters and partnered facilities.

Public Art

Priority Outcome: Create a more livable and sustainable city

This program significantly supports artists and cultural projects through five distinct types of arts programs: the Public Works Improvements Arts Program (more commonly known as Percent-for-Public-Art or Public % for Art), the Private Arts Development Fee Program, the Murals Program, and the City's Art Collection. The fifth program, Music LA, supports artists, cultural programming, and youth arts education by providing free to low-cost music education in underserved parts of the community. This program also ensures the well-being of the public realm through the support of an informed architectural design-review process for municipal projects.

Employee Relations

Priority Outcome: Make Los Angeles the best run big city in America

This program determines representation units for City employees, arranges for elections in such units, determines the validity of charges of unfair practices by management or employee organizations, and maintains lists of impartial third parties for use in the resolution of impasses. The Board is authorized to resolve matters relating to the composition of representation units and Unfair Employee Relations Practices (UERPs).

Governmental Ethics

Priority Outcome: Make Los Angeles the best run big city in America

This program shapes, administers, and enforces laws regarding governmental ethics, conflicts of interests, campaign financing, and lobbying. For each program area, the Ethics Commission is required by law to process public disclosure filings, provide advice and trainings, conduct audits, maintain a whistleblower hotline, investigate and enforce against violations, and analyze and make policy recommendations regarding the laws. The Ethics Commission also administers a matching funds program, which provides limited public financing to qualified candidates for elected office.
