

## Communication from Public

**Name:** Estella Suarez-Hamilton

**Date Submitted:** 05/03/2022 10:12 AM

**Council File No:** 20-1387

**Comments for Public Posting:** We The People Declare an END to the Covid 19 "Emergency". We declare the "emergency" to be based on fraudulent pseudoscience. This "emergency" has enabled the violation of The People's Constitution protected, God Given Liberties! We have been divided as a people, into two categories "vaccinated vs. unvaccinated"... "Believer vs nonbeliever". Our religious liberties and freedoms were trampled on. People were limited from access to worship and peaceful gathering! People are unable to equally access their government buildings to participate in civic duties. People are unable to purchase freely or access city jobs without being subjected to infringement on their religious liberties and conscience. LA City leaders-imposed cult-like mantras such as "Trust the Science" in order to coerce people to abandon THEIR Conscience! We have been subjected to coercion to participate in trials for drugs that are unorthodox, unnecessary and unusual. Drugs which were developed and marketed in a cruel way. We have been subjected to restrictions on where we can work or spend money without due process or equal protection of the law. We have been subjected to segregation in public spaces and federally funded organizations. These and many other grievances are the reasons why we the people are making this declaration! We declare the LA CITY COUNCIL should officiate the end of this emergency with the proper documentation no later than the 30 days from now. We declare all unlawful and unconstitutional ordinances and policies such as the vaccine proof mandate, the vaccine requirement for city workers and the mask mandate to be repugnant to the Constitution therefore 'Null and Void'(Marbury v. Madison) and should be ended immediately. No person in their right mind should enforce them. It's time for WE THE PEOPLE to declare an end to the Vaccine Proof Ordinance and an end to this perpetual emergency. God Bless America.
