

Elephant Hill is a vital open space located in the El Sereno neighborhood of Los Angeles. It provides some of the most scenic views of the eastside and critical habitat for local species.

Despite its beauty and ecological importance, Elephant Hill is a regular victim of illegal dumping and off-roading. Because it is out of the way and has easy access roads, off-roaders and trucks performing illegal dumping can get up onto the hill without being caught.

One of the key ways that illegal dumping and off-roading can be addressed is by installing new gates on the access roads that lead up to Elephant Hill. The Department of General Services has assessed the locations where new gates would serve as a deterrent to illegal dumping and off-roading and has provided an estimate for their installation. Funding is needed by the department in order to proceed with the project.

I THEREFORE MOVE that \$81,464 be transferred / appropriated from the Council District 14 portion of the "Neighborhood Service Enhancements" line item in General City Purpose Fund No. 100-56 to the General Services Fund No. 100-40 as follows: \$44,509 to Account No. 001101 (Hiring Hall Construction), \$24,019 to Account No. 001121 (Benefits Hiring Hall Construction) and \$12,936 to Account No. 003180 (Construction Materials), for the Elephant Hill / Gates and Lock Project.

I FURTHER MOVE that the Department of General Services be authorized to make any technical corrections or clarifications to the above fund transfer instructions to effectuate the intent of this Motion.

PRESENTED BY:

KEVIN DE LEÓN

Councilmember, 14th District
